Utilities Review

Dear Guy:

I am responding to your recent request to the Acton Engineering Department for a utilities review of the 25% plans for the Assabet River River Rail Trail. We have reviewed the plans and, as you know, have been close to the project from the beginning and along every step of the way.

The Town of Acton has no utilities within the project limits, and we do not know of any utilities by others in the project limits within Acton that would be affected.

However, we and the design engineer are aware of a private sewer line underneath the proposed trail from the Acton/Maynard town line north to STA 130+/-. It also extends south into Maynard. The proposed rail trail project will not affect the sewer line. It will be shown on the 75% plans.

Please let me know if you have any questions.

Happy New Year!
