John: I am OK with all the licenses submitted for renewal , with the exception of Savory Lane. It is my understanding that they have not responded to correspondence from the building department requesting an inspection of their premises to comply with the provisions of Chapter 304. I have no objections to the renewals of any other licenses on the list forwarded to me by Christine.

Bob I think I need a memo that says you are ok with all the licenses or not as the facts may be. If you have a concern on any license you must be specific as to that concern.

thanks

John

John: As a follow-up to our conversation regarding the Makaha Restaurant, the single item remaining for correction was a new fire alarm panel. This has been installed and tested. Therefore, I would have no objection to the renewal of their liquor license.
