**Importance:** High

Please wait until I have a chance to look into this request before you videotape anyone or anything at the train station for use by the town. As a town committee member there are certain procedures to follow for these things. I will speak with the Town Management and get back to you as soon as I can.

Sincerely,

Lauren

**Subject:** Re: videotaping the train station

Lauren,

I guess we misunderstood and thought we could request (not just be invited to do) a presentation at town meeting, to be presented later if voted upon. No matter. Thanks for clarifying. If we do create a video portion of our information, can we have a running powerpoint type of presentation going on at our table that people pass by? I would assume that if brochures and posters work, any technology does, but I want to make sure.

Either way, I would appreciate the ok on videotaping scenes around town such as the time-lapse of the station filling up with cars. And if there aren't legal prohibitions from taping (which I am guessing there aren't), I would also love to have a contact for the owner of the church condo under construction so I can ask them if I can sit on their wall to make the time-lapse.

Thanks a lot.

Franny
