Comments on Quail Ridge potential housing development:

First of all I was surprised to see how many housing units were proposed, and how it also looks like there would be 2 new connecting roads into the Acorn Park neighborhood.

But regarding the sidewalks, they appeared to be very well planned. I could see sidewalks throughout the development, and the construction appeared to follow the town guidelines having a large grassy buffer between the road and the sidewalk. From that perspective I would only have positive comments to make regarding the proposed sidewalks.
