<<SOC-Acton-cl.doc>> Hi Dara - the DEP has issued a superseding order. It's in the mail today. I will attach it to this e-mail so you have it already. The only difference between this one & the one you'll get in the mail is that the header on the second page was left over from another cover letter. This one is corrected. Rather than trying to pull it out of the mail, we let it go since it's only the cover letter which doesn't get recorded anyway. Even though the project is approved under state law it doesn't mean that it can be approved under the local bylaw. At this point the appeal of that bylaw won't be in court for a couple of years and if it was denied under the standards of the bylaw it should be sustained by the court. Please feel free to contact me if you have any questions,

MaryAnn
