

ACTON LEADERSHIP SUMMIT

Developing a Safety Net for Those in Need

**Wednesday evening,
November 12th • 7:30–9:00 PM**

**Acton Congregational Church
12 Concord Road, Acton**

With the current economic downturn, we are likely to see unprecedented needs appearing in our community. This gathering of town leaders is an opportunity to pool our knowledge and resources to prepare to aid those in need during the challenging times ahead.

We are gathering town officials, school administrators and principals, public safety personnel, state legislators, local clergy, service providers, and others to:

- 1) Raise awareness of some of the needs that arise during times of economic hardship
- 2) Identify resources that may be of help to others
- 3) Look for opportunities for collaboration and coordination to help those in our community who may have multiple needs
- 4) Brainstorm on creative ways to encourage members of our community who are willing to donate funds, food, and other services.

**Great communities are those in which people can thrive
when times are good, and be aided when times are challenging.
This is one of those challenging times. We need your help.**
