

Minutes of OLEC Meeting, 7 October 2008, 7:30 PM, Room 126, Town Hall.

Present: Martin Graetz, Hart Millett, Gary Green

The minutes for the September meeting were accepted as written.

1. A meeting with the Board of Selectmen to discuss its adherence to town bylaws (specifically, the outdoor lighting bylaw) awaits Bernie Kosicki's meeting with the Town Manager. This item to be continued.
2. Talking points for the 2 November oversight meeting with the BoS were discussed. These include the streetlight replacement project, which is now under way. GG suggested we get an update from Dean Charter on the progress of the project and on the Nstar rebate shortly before the meeting.

Other points: Star parties, and the possibility of turning off selected streetlights. We should get the BoS opinion, but might consider a citizen survey, through the *Beacon* and on the website.

3. Regarding the star party on 11 November. GG will obtain a projector for the slide show, but needs a large white sheet to hang on the bath-house wall for a screen.
4. HM will see Laura Mason about the OLEC website, and ask her for contacts on the ABRHS faculty who might be able to provide students with a project to write the scripts for the site's pages. We would have final review of the design.
5. The e-mail question---that some don't receive messages---was not resolved. HM didn't think he saw MG's reminder, tho it was sent from a personal address list, and not through the OLEC's.
6. There was no discussion of Earth Hour.
