Re: Plan Revision January 16, 2009
The Residences at Quail Ridge

Members of the Commission,

In response to the comments by the Commission at the December 17, 2008, public hearing the Wetland Crossing and Replication Detail, sheet 39 of 44, has been revised. Notes relating to the replication area have been modified to specifically state that top soil removed from the wetland fill area shall not be used in the replication area. Additionally, wording of the Wetland Restoration Notes, Procedure for Construction of Wetland Replication Area, and Construction Sequence for Wetland Crossing have been modified for better clarity. The Wetland Replication Plan has been expanded to show plantings in both the replication and restoration areas.

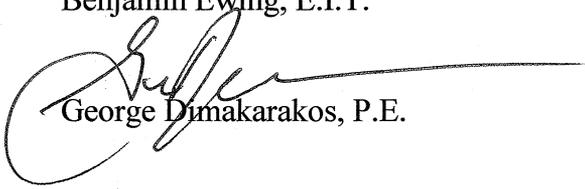

Since there were no additional comments on the proposed work outside of the wetland crossing area a full plan set shall be provided to the Commission at or prior to the January 21, 2009, public hearing

Please call if there are any questions.

Sincerely,

Stamski and McNary, Inc.

Benjamin Ewing, E.I.T.

George Dimakarakos, P.E.
