## **Sewer Action Advisory Committee -Flint/Tuttle/Spencer-West Acton -**

In a report dated September 8, 2008, the Water Resources Advisory Committee (WRAC) recommended that the Board of Selectmen/Sewer Commissioners consider the creation of a Sewer Action Committee for the purpose of further exploring the viability of introducing sewers to the Spencer/Tuttle/Flint Road neighborhood and/or the West Acton Village. The Flint/Tuttle/Spencer-West Acton Sewer Action Advisory Committee described herein is being established by the Board of Selectmen in response to the recommendations of WRAC and in response to petition requests for such consideration from citizens and business owners of these neighborhoods.

The purpose of the Sewer Action Advisory Committee is to examine the financial feasibility of sewerage the Spencer/Tuttle/Flint neighborhood and/or the West Acton Village, and to recommend to the Board of Selectmen any future Town Meeting actions in this regard. For the purpose of this investigation, sewerage may be deemed to include an extension of the Fort Pond Brook Sewer District and/or the creation of a separate sewer infrastructure and district.

The membership of the Committee is not fixed, but may include the following:

- Two individuals representing the Flint/Tuttle/Spencer Road neighborhood
- Two individuals representing the West Acton Village neighborhood, one preferably from the business community
- One member representing the existing Middle Fort Pond Brook Sewer District
- One member representing the Acton Public School District
- One member representing the Town of Acton Finance Committee,
- One member representing the broader Acton citizenry, and
- Other members deemed appropriate by the Committee and as approved by the Board of Selectmen

While the schedule for action by the Sewer Action Advisory Committee will be determined by the Committee, it is anticipated that the Committee will conduct a General Public Meeting by the end of the 2008 calendar year, and shall report its findings to the Selectmen on a schedule that anticipates a formal presentation to Annual Town Meeting in the Spring of 2009.

October 31, 2008
