RE: Lazaro Circle and Faulkner Mill Subdivisions in Acton, MA.

Planning Board:

The MBTA has been made aware via the notice of public hearing of two proposed subdivisions abutting the MBTA right-of-way. We have no objections to the subdivisions provided drainage plans are reviewed and approved by the MBTA Design & Construction Department. No drainage will be allowed onto the right of way and no uncontrolled drainage will be allowed toward the right of way.

Plans can be sent to MBTA Design & Construction, 10 Park Plaza, Boston, MA 02116.

Sincerely,

John D. Ray
Director of Railroad Operations
