Re: Declare Surplus Equipment
Date: May 7, 2009

The Council On Aging would like to find a new home for one of the two pool tables that has been in the Senior Center since it opened in 1994.

Because of space limitations in the Center, we would like to use the floor area taken up in the Dining Room by one of these large tables for other purposes. One of the tables is well used, but there is no regular need for two tables.

Recreation World in Natick gave us some information on our pool tables, which are Gandy semi-commercial tables. They estimate that the top value for one of these 15 year old tables would be \$500 - \$700. They also advised us that they have several used pool tables in their facility which are not selling at the present time.

They strongly recommend that this very heavy table should be moved professionally, which involves taking it apart before moving. If moved locally, their charge would be \$545.

We would ask to have this pool table declared surplus equipment by the Board of Selectmen and proceed to sell by sealed bid.

Thank you.

Jean Fleming
