Subject: RE: BOS Meeting on November 16

As of right now, our presentation included three requested changes to the permit:

1. A request to use the Windsor Building Shed for 2009 over-winter and next seasons storage.
2. An extension of the market time from 10-2 (road would need to be closed till 2:30 or 3?)
3. A spring market, one day, May 23rd, same time, for early spring veges, and plant seedlings.

So, those were the issues we wanted to address in the permit. However you think is best to address those issues, I am in support of. Honestly, whatever is easier for the group, I know time gets tight at the BOS meetings!

Hmmm. If Jen is going to come and speak about next year, than we might as well have the discussion about the use of the Winsor building at the same time. But if she is going to wait until Spring to talk about next year, then we should put the use of the building on consent.

Does that make sense ?

Paulina

Hi Jen,

I am writing on behalf of the Chairman to suggest that in the interest of time that we put your request to use the Windsor Building under Consent. This would require no discussion and would streamline the process.

As to your Appointment, that you only have 15 minutes on a crowded agenda and we ask that you let your supporters (and you have many including the BOS as your champion also) know that they don't have to speak, as the board has read the many e-mails of support and the Chair has answered them. This way your can discuss your plans for next year and the Town Manager will

work with you off Line on this, but feels that it went well and there will not be need to change the Permit at this time.

Can you get back to me today or early Thursday so that I can complete the Agenda for the 16th. Thanks in advance

Glad it worked out so well this summer I have not received one complaint or negative comment, only raves about it.
