Re: Letter of Interest, 5 Craig Road, Acton, MA

To Whom It May Concern:

The purpose of this letter is to state that T-Mobile has a definite interest in utilizing the SBA site at 5 Craig Road, Acton, MA as part of its wireless network, in the event that this facility gets approved and built. While today T-Mobile has no current open funded process to develop or co-locate on a site at this location, we do have a clear need for a site here, and will develop or co-locate on a site here at some point in the future. The site at 5 Craig Road, Acton, MA would satisfy that need.

I trust this clarifies the T-Mobile position on this site.
