**Board of Appeals
(Form 5)
Petition For Variance**

20

I/We hereby petition the Board of Appeals for a public hearing and a variance from the requirements of Section 3.3.2, 3.8.1.1 and 8.3.6 of the Zoning By-law, as provided by G.L. Chapter 40A, Section 10 to allow:

reconstruction of a single family residence on a lawful non-conforming lot,
incorporating living space for dependent elderly parents and one 3-car
and one 1-car garage.

OFFICE USE ONLY

Seven copies of petition? _____

Zoning Enforcement Officer

INTERDEPARTMENTAL COMMUNICATION

**REVISED MEMO (Recinds and Replaces Original Memo
dated February 14, 2011)**

To: Town of Acton Building Department/Applicant

Date: March 11, 2011

From: Scott A. Mutch, Zoning Enforcement Officer & Assistant Town Planner

Subject: 191 Nagog Hill Road – Construct New Single Family Residence with 7 Bedrooms, 7 Full
Bathrooms, 2 Half Baths, 4 Car Garage

Dear Applicant,

Please accept this communication as a replacement for the previously-issued memo dated February 14, 2011. That memo is null and void as of the date of this memo. This communication supersedes all information contained in the February 14th memo, and includes additional information and determinations from this Office.

The Planning Department has reviewed your proposed building permit application and CAN NOT approve it at this time. The pending building permit application is seeking approval to construct a new single family residential dwelling structure in excess of 10,000 square feet in size.

Under the Town of Acton's Zoning Bylaw, the subject property is deemed to be a non-conforming hammerhead lot. The property does not have the minimum 50'-0" lot width as required under Section 5.3.4.1 and is therefore non-conforming in that respect. The information provided on the Plot of Land submitted as part of the building permit application indicates that the lot width (at its narrowest point) is only 20'-0", creating a non-conformity.

Section 8.3.6 of the Zoning Bylaw sets forth the requirements for the Replacement of Single Family Dwellings. Simply stated, if a structure exists on a non-conforming lot, that structure is permitted to be demolished, but the replacement structure CAN NOT exceed the Net Floor Area of the previous structure prior to its demolition. The footprint of the new dwelling structure is not restricted to having to match the previous dwelling's footprint, but the Net Floor Area's of past and proposed dwelling structures must be the same, if not less. In addition, if approved, once the new structure is completed and a Certificate of Occupancy is issued by the Building Commissioner, a minimum of two years must elapse before any additions or new square footage is permitted to be added to the dwelling structure.

In this particular instance, a total demolition permit for the previous structure was applied for December 13, 2010 and issued on December 17, 2010. The complete section of the Bylaw pertaining to this issue is as follows:

- 8.3.6 Replacement of Single- and Two-Family Dwellings – A STRUCTURE in single family residential USE on a nonconforming LOT, that cannot otherwise be built on under the requirements of Section 8.1, may be razed and rebuilt for single family residential USE, or rebuilt for single family residential USE after damage from fire or natural disaster except flood, regardless of the degree of damage; and a STRUCTURE in two-family residential USE on a nonconforming LOT, that cannot otherwise be built on under the requirements of Section 8.1, may be razed and rebuilt for two-family residential USE, or rebuilt for two-family residential USE after damage from fire or natural disaster except flood, regardless of the degree of damage; in both cases subject to the following conditions and limitations:
- 8.3.6.1 The replacement STRUCTURE shall not exceed the FLOOR AREA RATIO on the LOT of the STRUCTURE that existed on the LOT before it was razed or damaged.
- 8.3.6.2 The replacement STRUCTURE shall meet all minimum yard and maximum height requirements of this Bylaw.
- 8.3.6.3 In the absence of architectural and plot plans for the existing structure to be razed, the FLOOR AREA RATIO shall be determined by using the information on record at the Town of Acton Assessor's office.
- 8.3.6.4 Additions to the replacement STRUCTURE may be made after two years following the date of initial occupancy of the replacement STRUCTURE, if otherwise permissible and subject to any permits and special permits that may be required.

I am aware that there has been some confusion regarding the application of Zoning Bylaw Section 8.3.6 to the proposed building plans, instead of Section 8.1. I have reviewed your counsel's materials regarding the application of Section 8.1 and, in consultation with Town Counsel, have confirmed that Section 8.3.6 was intended for precisely the circumstances proposed by this building permit. Specifically, Town Meeting approved Section 8.3.6 based on the following Summary of the Warrant Article from Town Meeting:

The zoning bylaw currently allows the restoration of structures after fire, flood, or similar disaster on lots that are nonconforming due to insufficient frontage or area, either by right if the damage amounts to 50% or less of the structure's value, or by special permit if damage exceeds 50% of the value. **The zoning bylaw does not currently allow the intentional demolition and rebuilding of structures on such nonconforming lots. This article would change this for single and two-family homes on such lots.**

It would allow their tear-down and replacement in kind. Since 2000, the Board of Appeals heard six variance petitions to allow such replacements. The cases varied. Five variances were granted. The statutory criteria for variances – hardship due to soil conditions, shape or topography – do not strictly apply to replacements after demolitions. Insufficient frontage or area by themselves cannot be considered hardship. This article would remove the zoning bylaw's barrier against demolition and replacement of single- and two-family residences on nonconforming lots, some of which may fall into disrepair after years of estate ownership and abandonment, become an eyesore in the neighborhood, pose a safety hazard, and may be cheaper to replace than to renovate. **As proposed in the article, a replacement residence would be allowed by right if it complies with applicable setback and height requirements of the zoning bylaw and, as a barrier against speculative tear-downs, if it initially is not larger than the residence it replaces.** Additions can be made later on by a home owner, just like additions can be made to existing homes on non-conforming lots. Looking only at smaller single family homes (less than 1,500 square feet in living area) as the more likely candidates for potential speculative replacements, and evaluating their lots only for area, the Planning Department found 237

such small homes on undersized lots. This represents approximately 4% of Acton's single family housing stock.

This article would also allow by right the replacement in kind of single and two-family homes after fire or natural disaster except flood, regardless of the degree of damage that occurred. (Emphasis added)

According to the Summary, Town Meeting specifically intended to regulate tear-downs on non-conforming lots under Section 8.3.6, not Section 8.1. Under this reading, Section 8.1 applies to original construction on a vacant lot but not to demolition and reconstruction of an existing structure which had become nonconforming. See *Dial Away Co., Inc. v. Zoning Bd. of Appeals of Auburn*, 41 Mass.App.Ct. 165, 170 (1996) ("Considering the eventual elimination of non-conforming uses as an objective underlying zoning regulations, ... and, in particular, that of Auburn's [zoning bylaw involved in that case], we interpret § 8.1 [of the Auburn bylaw] to apply only to original construction [on a non-conforming lot].").

ADDITIONAL ZONING BYLAW NON-COMPLIANCE ITEMS

1. The building permit plans currently submitted for review, propose the creation of two (2) separate and independent garages. The plans identify a three (3) car garage proposed on the south side of the home and another single (1 car) garage on the north side of the dwelling. Accessory Uses permitted under Section 3.8.1.1 of the Zoning Bylaw allows for a "private garage or carport for not more than four motor vehicles...". The Zoning Bylaw indicates the term "garage" to be singular in nature and therefore, I am determining that only one (1) garage structure is permitted on the property. I CAN NOT allow or permit 2 separate and independent garage structures to exist on a single residential lot.
2. The submitted building permit plans call for the creation of a space that may function as an accessory apartment unit located on the northern side of the home where the single car garage is situated. I have determined that the proposed plans create the accessory apartment due to the following manner in which the space is configured:
 - Two (2) separate and private direct exterior entrances into the space. One labeled as "Entry" which acts as the "main entrance" and has a covered porch as part of the entrance space, and another exterior entrance door providing direct access to a rear outdoor patio and backyard space;
 - The placement of a door which can be closed so as to completely separate and keep private the accessory apartment unit from the rest of the main dwelling unit;
 - Separate direct access into the single car garage from inside the accessory apartment;
 - Private single car garage;
 - Two separate bedrooms each with private ensuite bathrooms;
 - Private washing and drying machines and;
 - An area consisting of a countertop with base and upper cabinets, a sink, dishwasher and a full height refrigerator.

All of these design elements configured as is currently depicted on the submitted building permit plans, suggest the creation of an accessory apartment unit. The Town of Acton's Zoning Bylaw permits a single family dwelling to have an accessory apartment unit provided that the accessory apartment unit satisfies very specific requirements. In this particular instance, the most restrictive requirement is the fact that a single family dwelling must have been in existence prior to January 1, 1990 in order to be permitted to have an accessory apartment unit. The specific Zoning Bylaw language of Section 3.3.2 states "A single FAMILY Dwelling, the

BUILDING of which was in existence on or before January 1, 1990, to be altered and used for not more than two DWELLING UNITS, the Principal Unit plus one Apartment....". Clearly, this building permit application which seeks approval to construct an entirely new dwelling unit does not satisfy the requirement of the "BUILDING of which was in existence on or before January 1, 1990".

Based upon the above noted information, I am determining herewith that the new proposed dwelling which is to be located at 191 Nagog Hill Road, Acton, MA does not comply with the Acton Zoning Bylaw. Accordingly, I will not sign-off on or approve any building permits.

You may, of course, modify your building plans to conform to the requirements and concerns listed in this memo. I would be happy to review such plans with you at any point. In addition, if you disagree with and wish to seek relief from any of the determinations made in this memo, you may pursue any or all of the following three avenues (at your discretion):

1. Submit an application for a Petition for Review to the Zoning Board of Appeals challenging the administrative decisions of the Zoning Enforcement Officer regarding the interpretations of the Zoning Bylaw included in this memo;
2. Seek a finding from the Zoning Board of Appeals that the proposed dwelling may be built upon the non-conforming lot despite Section 8.3.6 pursuant to M.G.L. c. 40A, § 6, first paragraph, or;
3. Submit a variance application to the Zoning Board of Appeals seeking relief from the above noted Zoning Bylaw requirements.

Should you wish to exercise any one of these options, Zoning Board of Appeals information can be obtained by contacting Cheryl Frazier, Secretary to the Zoning Board of Appeals at (978) 929-6633 during regular business hours.

If you have any questions, comments or concerns regarding this matter, please feel free to contact our office at (978) 929-6631, Monday through Friday (except for holidays) between the hours of 8:00 am and 5:00 pm.

Sincerely,

Scott A. Mutch
Zoning Enforcement Officer & Assistant Town Planner
