Kristin--

If you have the time, can you print out this email for distribution at the meeting? I'd like to get folks' input on the wording/look.

Thanks,

Margaret

Hello all—Thank you all so much for attending our “world premier” of “It’s a Wonderful Acton.” We were delighted that so many of you came! We hope you are excited now to come out to our June 23<sup>rd</sup> event, “Choose Your Own Acton.” We will be sending a reminder email to you about this event later that will also include a link to materials you can review in advance of the event if you choose.

But for now, you are first to get the link to “It’s a Wonderful Acton.” Please pass this on to any friends and neighbors you have and encourage them to come to the event on June 23<sup>rd</sup>. I’ve included some text below if you choose to use it. We are grateful for your involvement in planning for Acton’s future!

Sincerely,

Acton 2020 Committee

Margaret Woolley Busse, Chair

Friends:

What would Acton be like if *you* didn’t exist? Please watch this 5-minute short film about when “George Bailey” doesn’t get involved in planning for Acton’s future. Watch [“It’s a Wonderful Acton” here](#). And be sure to watch the credits to see many of your friends and neighbors on screen!

And then come to our Acton 2020 “**Choose Your Own Acton**” public event where we’ll be presenting and discussing **three different alternatives** for Acton’s future.

**Alternative One**

**Disperse Growth:** Extend current trends/Continue current planning policies

**Alternative Two**

**Limit Growth:** Limit residential housing/Promote economic development/Acquire open space

**Alternative Three**

**Concentrate Growth:** Guide growth to key town centers

Which one will you choose? Should Acton limit residential housing growth, build up a town center,

preserve more open space? **We need your input so we can know what to prioritize and focus on as a town.**

For more details, see our website at [www.acton2020.info](http://www.acton2020.info).
