Subject: Want to see transition to organic farming

Dear Caouette Conservation Restriction Committee,

I am writing to express my opinion that I would like to see the Caouette farm land transitioned to all organic farming as soon as possible. For a myriad of reasons (worker exposure to toxic chemicals, effects on wild life, poisoning of groundwater) I do not want my tax money to go towards supporting the use of pesticides/herbicides on publically supported land. Please take this into consideration at the Monday June 23th meeting and at all future discussions of this topic.

Thank you,

Priscilla Bolte
