Hi Lisa,

Thank you for discussing strategies for Acton's future with the Acton 2020 Committee, Planning Department staff, and the planning consultants last week. We really appreciate it. I also appreciate you thinking about the issues after the meeting and sending additional comments for us to consider. I'm copying the Acton 2020 Committee and consultants so they can take them into consideration.

Thank you again for continuing to work with us on the Acton 2020 planning process!

Take care.

Kristin

Subject: following up on playing fields

we dont need to make a rule about organizations being inclusive:

we cant make them accept anyone they dont want to, BUT they must allow anyone to try out who wishes to
i think our town leagues should be non try out if they arent already
