Subject: Proposed senior center and community center
Date: Tuesday, October 11, 2011 2:54:00 PM

Dear Committee Members

According to the Senior Center Bulletin you are going to discuss these issues tomorrow evening.

I do not believe there is a need for a new Senior Center in the next 10 years. If you examine the October calendar you will see that a number of afternoon hours are open and others serve very few individuals. As far as I can tell over the years only the exercise class doesn't serve all who might wish to attend.

What services would a Community Center serve. Reading the program of a center in a nearby community reads like offerings of our Community Education. Indeed, we have a community center, its called the schools where there are many activities after school and in the evening. Before opting to suggest a community center, I would hope that you would carefully consider what could be done in a "community center" that can't be accomplished in some room(s) in the schools.

Bob Evans
