Re: DEP File No. 85-275
Kennedy Lane

Members of the Commission,

On behalf of our client, Deborah Whitehead, we hereby request a Certificate of Compliance for the referenced file. Based upon an As-built surveys conducted during construction and a final inspection of the site on this date, it is our opinion that construction has occurred in substantial compliance with the plan of record and the Order of Conditions with the following noted deviations:

- The center of the culdesac is completely paved but the culdesac was repositioned further from the wetland and the amount of impervious in the Buffer Zone appears less.
- The gas traps hoods are not currently present in CB1 and CB2 but were likely present at the completion of construction.

Otherwise, the site is well established with vegetation.

If you have any questions, please feel free to call.

Very truly yours,

Stamski and McNary, Inc.

Joseph March, P.E., P.L.S.
