Re: Comments on 2020 Action Items

Dear Acton 2020 Committee Members,

Thank you for the many hours you have invested in this project, and for the continuing opportunity to comment.

ACES strongly posits that environmental health and safety need to be kept in mind across all areas of municipal planning. Without clean air and water, no community is truly viable. Restricting discussion of these key resources to a “Sustainability” section does not provide appropriate or adequate attention, and, with that in mind, we offer the enclosed comments.

Emeritus:

John Abernethy, M.D.

Sincerely,
