Subject: Hybrid Farm draft License Agreement on agenda for 9/19/12
Attachments: Hybrid Farm License Agreement (A0163137-6).docx; Hybrid Farm License Agreement (A0165679).docx

Commissioners,

Attached are two clean versions of the current draft of the License for Hybrid Farm, which reflects the additional information from Terry concerning the prior decision by the Cons. Comm. with respect to restoration, as well as the two options which are currently proposed for Commission's consideration. The highlighted paragraphs contain the two options for security from the McConnons for the restoration requirement.

This paragraph is the only difference between the two versions attached. **These paragraphs are only two options of many – the Commission is not limited to picking either of these in whole or in part in the form as drafted here.** This is just for the sake of efficiency, should the Commission agree to one of these scenarios, they may execute the License at the next meeting. **The Commission can modify the proposed language if needed.**

This is on the agenda for the **Commission's meeting on September 19.**

If you have any questions or concerns, please call Nina L. Pickering-Cook at Anderson & Kreiger LLP
Please do not send comments or responses via email unless to me or Nina directly, and not to other Commission members.

Thanks!

Sincerely,

Bettina Abe
