**Re: Morrison Farm**

Dear Members of the Community Preservation Committee:

I write to support the whole Morrison Farm proposal presented to the CPC. As an Acton-Boxborough Youth Soccer Board Member at the time of the original vote and someone who organized to get out the vote, I have a long and supportive feeling about Morrison Farm.

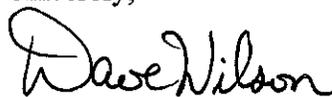

I recognize that the plan has changed significantly over the past 16 years and now does not support a large active recreation space, but I want you to know that I still strongly support this project.

The Morrison Farm program will provide benefits and joy for hundreds of years for our children, grandchildren and all citizens. I especially believe that the Morrison Nature & History Center will be integral to the project and the central element that makes everything else work better and to a larger scale.

Finally, I hope that narrow special interests do not trip up the work of so many people over the last decade or more. My particular "special interest" was large active recreation space, and now that is not part of the plan, but it is nonetheless, still a good plan. I believe generations of Actonians will take their own interest in this special land.

I urge you to support this project in full. The time is now. Thank you.

Sincerely,

Dave Wilson
