

Town of Acton Planning Board
Acton Town Hall
Acton, MA
Feb 5, 2013

Petition

To address the proposed ^{VARIOUS} variance zoning requests that if approved would allow Thomas Trudeau, Trudeau Homes International, 852 Main St, Acton, MA to do the following:

- Allow for the Sale, Service and Storage of Certain Home Heating Fuels, including Wood
- Amend the definition for "Warehouse distribution Plant & Manufacturing" to allow for outdoor handling and processing of Wood.
- Reduce the requirements that effective landscaping or architectural screening that would reduce the visual impact when viewed from adjacent and nearby streets and residentially zoned properties.

The impact of allowing these changes will be:

Large Trucks entering and leaving Trudeau International carrying timber.
Large Equipment to load and unload timber.
Saws and Splitters creating noise, dust, air pollution.
Storage and Transportation of Split wood.

The Objections to the Wood Cutting, Splitting and Storing extend to considerations of

- Excessive Noise
- Excessive Pollution
- Fire Hazard
- Visual Impact with no required screening
- Added and Excessive Large Truck Traffic
- Addition of Outside Large Equipment

One year ago Trudeau International Homes was ordered by the Town Zoning Board to stop his ongoing wood cutting, splitting and storage of wood with the threat of a daily fine. Also, he was required to remove the materials. The operations were halted but considerable amounts of wood still remain on the property. He is and has been in violation of the zoning rules for the past year since the town issued their order.
