Conservation Commission

June 5, 2013

Mr. Wick McConnon
Hybid Farm
217 Nagog Hill Road
Acton, MA 01720

Dear Wick:

Per our phone conversation today, two members of the Conservation Commission accompanied by Natural Resources assistant, Bettina Abe, were doing a walk on the Nagog Hill property last week when they observed a young woman bringing two horses from Area D to Area B for grazing.

I want to remind you that it was suggested by you and agreed to by the Commission that the sole access to and from Area D would be by means of the gravel roadway which crosses your property. Paragraph 9.5 of the License prohibits the use of the crossings from Area C to Area D (This prohibition includes use of the crossing to Area B since Area B is in between Areas D and C.) after December 31, 2012, unless the Commission has allowed such use, which it has not.

Please instruct your employees and students not to use either of the two gates in the metal fence which bounds the northern line of Area D abutting the wetland area.

Thank you for your cooperation.

Tom Tidman
