Hi Pat,

Thank you for your comments. Paul (Asst. Engineer) and I looked over the plans with the SU-30 turning template and confirmed that the new curbing and planting areas have been amended to accommodate the Fire Department Ladder Truck.

Thank you again.

During the initial meeting with the design group I had brought up the question of the ability of a Fire Department Ladder Truck being able to traverse the entrances both off of Main Street and off of the No Name Street. The question is the new curbing and planting areas are the far enough apart to allow for large emergency vehicle travel. The group was going to check into it and I never heard back. The rest of the parking area looks fine by the Roche Brothers parking lot.
