Subject: 27 Jackson Drive Development

Dear Ms. Gorman,

As a proud resident of Patriot's Hill and a homeowner of 6 Madison Lane, I'm disheartened by the proposed development that will happen just a stone's throw from our family property at 27 Jackson Drive. I can't understand why Acton continues to stuff houses into every open plot of land. The nature of our town is being damaged by this and similar building patterns across town.

It's truly disheartening and takes away that charm of our lovely suburban neighborhood, never mind displacing the wildlife, clear cutting trees and creating a new unsafe traffic pattern that will negatively impact our active pedestrian community. I implore you not to grant any zoning variances for this project.

I plan to attend the public hearing in September. Please protect our neighborhood and our town from over-building!!

Thank you.

Eileen Matarese
