---

Hello,

Thank you for your time yesterday. The pavement layout has been revised, based on your feedback, please review the updates and let us know if there are any additional questions:

Summary is as follows:

1. Proposed pavement will have a flared entrance that is 22'+ at entrance for turning template which then tapers down to 12' wide along access drive, prior to widening to 16' prior to 14' wide turnaround. The 16' width has been extended down along curve and the outside diameter of the 14' wide turnaround has been increased to Diameter=113'.
2. The gravel base will extend beneath the 3' shoulder on each side of access drive and turnaround thus providing 18' minimum to 22' maximum of gravel subbase along access drive and 20' minimum along turnaround.
3. Please confirm Street Name and Street Numbers which have been added for the five dwellings: #1, #2, #3, #5 & #6 Constitution Drive (will remain a private way).
4. Hydramt will be provided as shown at end of turnaround.

Regards,

Richard J. Harrington, P.E.
