

The Acton Volunteer Coordinating Committee met July 8, 2013 and interviewed Ronald Regan for a position on The Historic Commission. He lives on Windsor Avenue and has been actively attending the meeting on the proposed building concerns. He has an assoc. degree in Architectual Engineering Technology, however is working as a software engineer.

We do have concerns as to his focus on Windsor Avenue as his main agenda. We did vote to move his name for further consideration.

- Development of the Public Radio Exchange website version 2. An exchange for public radio stations and producers to exchange radio. Developed in Java using Struts, JSP, Servlets, Hibernate, HTML, JavaScript, and MySQL. <http://www.prx.org/>

May. 2004 – August. 2004 Undertree Communications Boston, MA

Sub-Contractor

- Maintenance of the Public Radio Exchange website. See above.

Jan. 2002 – Present J. J. Donahue and Company Boston, MA

Independent Contractor

- Maintenance and development of Global Office Link website. Developed and fixed bugs in HTML, JavaScript, ASP, VB 6 (COM layer), and TSQL. <http://www.globalofficelink.com/>
- Development of the Global Lease/Sale Link application. A workflow and collaboration tool for negotiating corporate real estate lease and sale proposals and managing the entire process from proposal to occupancy. Developed in HTML, JavaScript, ASP, VB, TSQL, XML/XSLT.

Feb. 2003 – Feb 2004 Harvard University Extension School Cambridge, MA

Teaching Fellow - Communication Protocols and Internet Architectures

Assist students in their learning online and at weekly sections. Create and grade homework assignments, midterm exams, and final papers.

Sept. 2000 – May 2001 Q2 Technologies LLC

Boston, MA

Tech Lead / Architect / Consultant

As the Tech Lead I worked directly with customers (onsite and remotely) gathering requirements and architecting solutions. I then managed a team of developers, typically including myself, implementing and deploying a solution.

- Lead a small team (2 plus my self) developing an instant messaging module for J2EE application servers using servlets, JSPs, and EJBs.
- Lead a small team (3 plus my self) developing a customer portal and partner extranet web application for managing Long Term Care using IIS/MTS with VB.
- Developed DTDs and XSLTs for an online learning system.

Sept. 1999 – Sept. 2000 SilverStream Software

Billerica, MA

Web Application Developer (MIS)

- Developed and maintained applications for SilverStream's website using the SilverStream application server and tools.
 - Website visitor registration system integrated with Onyx CRM back-end.
 - Event searching and online registration system for education and seminars, integrated with the visitor registration system for authentication.
 - Product registration and update system allowed users to download new products from the website.
 - Extranet for partners to enter product, service, and contact information on SilverStream's website. Search mechanism for website visitors to search partners by product and service categories.
- Non-website work includes SQL Server 6.5/7.0 administration, Onyx CRM administration and reporting, integration of diCarta, an online contract mgmt. System with Great Plains.

Dec. 1998 – Aug. 1999 Oracle (through Acquisition of Concentra)

Burlington, MA

Senior Data Warehousing Engineer

- Implemented mobile support of the SellingPoint sales force automation tool using replication between Oracle Lite and an Oracle Enterprise Server. Programmed with VB, PL/SQL, and Java.
- Provided DBA support to Engineering group. Installed, configured and maintained Oracle Enterprise Servers on Unix and NT. Installed and configured Oracle Lite on NT and Windows 95.

July 1995 – Dec. 1998 Concentra (formerly ICAD)

Burlington, MA

Programmer/Analyst/DBA (Webmaster)

- Installed, maintained, customized and enhanced Fourgen/Softrax financial systems for accounting, purchasing and order entry (using an Informix database.); Developed a project tracking system for consultants to track hours for projects and integrated it with an Oracle database. Used MS Exchange, Outlook and VB; Developed a web-based opportunity management system for marketing to track prospects and customers for mailings using MS IIS4; Developed a conference room scheduling program with Exchange and Outlook; Provided corporate DBA support. Installed, configured and maintained Unix-based Oracle and Informix servers.
- Developed and administered company's first web site in 1996.
- Programmed with SQL, Informix 4gl, VB, TCL, C shell, HTML, ASP and Java script.

Jan. 1994 – July 1995 Concentra (formerly ICAD)

Burlington, MA

Quality Assurance Engineer

- Developed and administered tests and testing tools for The ICAD System, a knowledge-based engineering system (based on Franz Lisp.) Programmed with Lisp, TCL, and C.

Jan. 1990 – Dec. 1993 InterSystems

Cambridge, MA

Quality Assurance CO-OP /Support Programmer

- Implemented product enhancements and bug fixes of the M/SQL DBMS product. Programmed in C, MUMPS and SQL.
- Developed and administered tests and testing tools for the M/SQL DBMS product using SQL and MUMPS. Administered, executed and reported IHS (Indian Health Services) benchmark results on VAX and various Unix platforms.

2002 – 2009

Harvard University Extension School

Cambridge, MA

Master of Liberal Arts, Information Technology, Software Engineering

- GPA 3.9/4.0
- Course Work: Software Architecture and Engineering, Distributed programming with Java, Design patterns with Java,

Education

- e-Business Applications with Java and XML, Communication Protocols and Internet Architectures, C Programming, Unix Shell Programming, Unix System Programming, VB.NET, Algorithms at The Ends of the Wire
- Thesis Project: <http://requel.sourceforge.net/> - A collaborative requirements management tool. Using Spring, Hibernate, Echo2, JAXB, Quartz, Word Net, Stanford Parser, OpenNLP
- Credited book reviewer for "Speech and Language Processing (2nd Edition)" by Daniel Jurafsky, James H. Martin

1989 – 1992 Northeastern University Boston, MA

BS/CS Honors Program – Bachelor of Science in Computer Science
• GPA 3.5/4.0

1986 – 1988 Wentworth Institute of Technology Boston, MA

AET – Associate Degree in Architectural Engineering Technology

Subject: RE: FW: Ronald Regan Application

Hi Christine,

You can change the name of the attachment by going to the email options section and selecting "file name." As you have already discovered, you can also change the subject line as well.

Thanks,
Katelin

Subject: Re: FW: Ronald Regan Application

If you can change the subject line to anything but "**Scanned from a Xerox multifunction device.pdf**" it would be helpful. The problem is I have over 900 emails in my inbox on any given day. When I am searching for something specific (as in this case, the VCC applications), it is very hard to find. I appreciate any help you can provide.
