Project Narrative

Existing Conditions

Lot 5 currently contains a corner of the existing garage (57± square feet) and a majority of the paved driveway turnout (2,082± square feet, 103± square feet within the Buffer Zone) with associated landscaped areas. The remainder of the dwelling site on Lot 5 is wooded. The vegetative cover consists of an open grass area and woodlands. There is a Bordering Vegetated Wetland (BVW) located on the east of the lot adjacent to an intermittent stream.

Project Description

The proposed project is to relocate the existing #27 dwelling onto Lot 5. A portion of the dwelling (725± square feet) and garage (465± square feet) will be located within the 100' buffer zone. A new foundation for the dwelling must be poured, grading associated with the dwelling relocation and new septic system, a porch (65± square feet) and a deck (348± square feet) are proposed within the 100' buffer zone. This filing is for the work associated with the dwelling only. The work within the drainage easement area has been filed under a separate Notice of Intent for the private way.

Resource Area Descriptions

The resource area is a Bordering Vegetated Wetland (BVW). The BVW is located on site to the east and was delineated by B & C Associates. The delineation was confirmed with an ORAD, DEP File # 85-1105. The wetland borders on an intermittent stream which ultimately drains into Conant Brook.

Massachusetts Endangered Species Act Review:

The project is not located in an area subject to MESA review.

Compliance with Town of Acton Wetlands Bylaw and Wetland Bylaw Regulations:

The proposed work is within the 100' Buffer Zone. Only grading (51' +/-) is within the 75' "No Build" Buffer Zone. The dwelling (78' +/-), garage, and deck are located outside of the 75' "No Build" Buffer Zone. No work associated with this filing is within the 50' "Undisturbed Natural Vegetation".

Compliance with Stormwater Management Standards:

A roof drywell and stone trench along driveway are proposed on the lot outside the Buffer Zone. A stormwater management report has been submitted with a separate Notice of Intent for the private way for this residential subdivision with greater than four lots.

Compliance with General Performance Standards for BVW 310 CMR 10.55:

The General Performance Standards for a Bordering Vegetated Wetland have been met since the proposed activity does not involve removing, filling, dredging or altering of a BVW. The proposed siltation controls will prevent indirect alteration of wetlands during construction.

Lot 5 - Sequence of Construction:

- Install DEP File Number Sign and have approved plans and Order on site.
- Install Erosion and Siltation Controls prior to any activity.
- Install stabilized construction entrance at end of existing driveway.
- Cut and remove existing vegetation on Lot within limit of work.
- Stump and grub work area.
- Strip top and sub soil and stockpile outside of buffer zone.
- Excavate and pour foundation.
- Relocate dwelling to new foundation.
- Perform all necessary grading relative to dwelling and septic system.
- Loam and seed all disturbed areas within buffer zone.
- Install irrigation system if provided.

C. Findings

This Order of Resource Area Delineation determines that the boundaries of those resource areas noted above, have been delineated and approved by the Commission and are binding as to all decisions rendered pursuant to the Massachusetts Wetlands Protection Act (M.G.L. c. 131, § 40) and its regulations (310 CMR 10.00). This Order does not, however, determine the boundaries of any resource area or Buffer Zone to any resource area not specifically noted above, regardless of whether such boundaries are contained on the plans attached to this Order or to the Abbreviated Notice of Resource Area Delineation.

This Order must be signed by a majority of the Conservation Commission. The Order must be sent by certified mail (return receipt requested) or hand delivered to the applicant. A copy also must be mailed or hand delivered at the same time to the appropriate DEP Regional Office (see <http://www.mass.gov/dep/about/region/findyour.htm>).

D. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate DEP Regional Office to issue a Superseding Order of Resource Area Delineation. When requested to issue a Superseding Order of Resource Area Delineation, the Department's review is limited to the objections to the resource area delineation(s) stated in the appeal request. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request for Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order of Resource Area Delineation will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order or Determination, or providing written information to the Department prior to issuance of a Superseding Order or Determination.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act, (M.G.L. c. 131, § 40) and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal bylaw or ordinance, and not on the Massachusetts Wetlands Protection Act or regulations, the Department of Environmental Protection has no appellate jurisdiction.
