To PCP Committee members:

On December 2, 2013 the Acton Council on Aging Board voted to support the grant applications for improvements to the Acton Arboretum submitted by the Natural Resources Department. Both the requests for enlargement and improved accessibility of the parking lot and the rebuilding of the boardwalk will increase the ability of older people to enjoy the arboretum. We (the COA Board) consider recreation and exercise vital elements for maintenance of good health while aging.

We wish to add our endorsement of these two CPA grant applications to that of the Commission on Disabilities.

Barbara Willson, Chair

Acton Council on Aging Board
