---

Dear Planning Board,

We are requesting that our home at 19 Washington Drive, as represented in all plans drawn up in relation to the Roosevelt Drive subdivision, be corrected to face WASHINGTON DRIVE not Coolidge Drive as it is now. Accurate arial imagery would document the direction of our home placement as facing Washington Drive. By correcting the directionality it then gives correct visual proximity to the proposed lot that would be built adjacent to our property as part of the Roosevelt Drive subdivision plan. We are requesting this correction to be made prior to the May 6,2014 Planning Board meeting so that all parties attending that meeting view the correct visual perspective illustrating the proximity to our home .

Thank you~

Susan Grossman
