Re: Notice of Intent
Knox Trail, Acton
Applicant: Valley Sports, Inc.

Dear Commission Members:

Enclosed please find four (4) copies of a Notice of Intent (NOI), submitted on behalf of Valley Sports, Inc. filed under the Massachusetts Wetlands Protection Act and the Town of Acton Wetlands Protection Bylaw for the above referenced property. This filing comprises:

1. This cover letter;
2. The Notice of Intent forms with required attachments;
3. Photographs of the site;
4. Checks to cover the filing fees;
5. Wetland Resource Evaluation by EcoTec, Inc. dated December 9, 2013; and
6. Site Plan by Northeast Geoscience, Inc. dated October 25, 2013.

Please note that detailed engineered plans are being prepared and will be submitted to supplement the application as soon as they are available.

One (1) copy of the NOI filing has been submitted by certified mail, return receipt requested to the Central Regional Office of the Department of Environmental Protection and the Natural Heritage and Endangered Species Program. One complete copy of this filing has been submitted to the applicant and property owners. It should be noted that it EcoTec's understanding that the parcel located along Knox Trail, owned by the KT Realty Trust is currently being acquired by the Town of Acton due to the non-payment of taxes for many years. As such, this parcel is expected to be owned by the Town of Acton shortly. Nevertheless, as noted above a copy of the application has been provided to the current owner as required by the Act.

The proposed project consists of connecting the existing facility to an existing municipal water main located on Knox trail. This is necessary due to the water quality of the well water, which makes poor quality ice at the facility. Several alternatives were evaluated, including open trenching across the Assabet River, trenching to connect to the Town of Concord's municipal water, and the preferred directional drilling method. The wetland resource areas will be protected

during construction by installing an erosion control barrier of silt fencing, with the impact areas restored upon completion of the project. The project is proposed to be located within the Riverfront Area and alternatives were evaluated as follows:

Alternatives Analysis:

1. No Build: This alternative does not meet the project purpose and has been dismissed;
2. Connection to Concord's Municipal Water: This alternative was evaluated and would require a waterline to be trenched from the Valley Sports facility a few hundred feet east on Main Street of connect to Concord's municipal water system. This alternative would require a substantial amount of work within the Riverfront Area and would cost significantly more due to the length of trenching to reach the existing water line. Therefore, this alternative has been dismissed as a substantially equivalent economic alternative.
3. Open Trenching within the Assabet River: This alternative would require temporary coffer dams to be installed in the Assabet River with substantial dewatering activities to allow sections of the water line to be installed while allowing the flow in the river to continue during construction. Due to the costs associated with the de-watering activities along with the substantial disturbance that would be required to conduct the open trench installation, this alternative was dismissed.
4. Preferred Project (directional drilling):
The preferred alternative includes excavating two temporary pits. One entry pit will be excavated in the existing parking lot and the exit pit will be located where the water connection will be made on the shoulder of Knox Trail. Then a directional drill will drill beneath the Assabet River to install a 4 inch HDPE water line sleeve to allow a 2 inch HDPE water line to be installed into the sleeve. This will allow the connection to be made without disturbing Bank, Bordering Vegetated Wetland (BVW), and Bordering Land Subject to Flooding (BLSF). Only two small areas for the entry and exit pits will be required and each will be restored upon completion of the water line installation. The entry pit will be restored by re-paving and the exit pit will be restored to the existing grades and loamed and seeded with an erosion control seed mixture.

The site is located within Estimated and Priority Habitat as mapped by the Natural Heritage and Endangered Species Program (NHESP). The project is located within existing paved parking lot and along the shoulder of the existing roadway. All connections will be made via directional drilling to eliminate impacts to the wetland resource areas between the entry and exit pits. Therefore, it is EcoTec's opinion that the project may be exempt under the MESA Regulations at 321CMR 10.14(5), which state:

(10) installation, repair, replacement, and maintenance of utility lines (gas, water, sewer, phone, electrical) for which all associated work is within ten feet from the edge of existing paved roads, and the repair and maintenance of overhead utility lines (phone, electrical) for which all associated work is within ten feet from the edge of existing unpaved roads, provided, however, that unpaved utility access roads associated with exempt activities under 321 CMR 10.14(11) shall be addressed in and subject to the Division-approved operation and maintenance plan required thereunder;

However, because the applicant is seeking approval for this work to proceed as soon as possible, a check for \$300 has been provided to ensure that the NHESP processes the application in the event that they feel that the project does not fall under this exemption. Therefore, a complete copy of this application has been submitted to the NHESP for confirmation of this exemption or approval if the Program determines that this exemption does not apply.

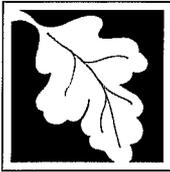

We look forward to meeting with the Commission regarding this project. If you have any questions, please feel free to contact me at any time.

Sincerely,

Scott M. Morrison
Senior Environmental Scientist

A. General Information (continued)

6. General Project Description:

The proposed project consists of connecting the existing facility to municipal water service, which will require a connection beneath the Assabet River. It is proposed to use directional drilling to make the connection, which will avoid wetland impacts to the River.

7a. Project Type Checklist:

- 1. Single Family Home
2. Residential Subdivision
3. Limited Project Driveway Crossing
4. Commercial/Industrial
5. Dock/Pier
6. Utilities
7. Coastal Engineering Structure
8. Agriculture (e.g., cranberries, forestry)
9. Transportation
10. Other

7b. Is any portion of the proposed activity eligible to be treated as a limited project subject to 310 CMR 10.24 (coastal) or 310 CMR 10.53 (inland)?

1. Yes No If yes, describe which limited project applies to this project:

2. Limited Project

8. Property recorded at the Registry of Deeds for:

see attached ownership information

a. County

b. Certificate # (if registered land)

c. Book

d. Page Number

B. Buffer Zone & Resource Area Impacts (temporary & permanent)

- 1. Buffer Zone Only - Check if the project is located only in the Buffer Zone of a Bordering Vegetated Wetland, Inland Bank, or Coastal Resource Area.
2. Inland Resource Areas (see 310 CMR 10.54-10.58; if not applicable, go to Section B.3, Coastal Resource Areas).

Check all that apply below. Attach narrative and any supporting documentation describing how the project will meet all performance standards for each of the resource areas altered, including standards requiring consideration of alternative project design or location.

Table with 3 columns: Resource Area, Size of Proposed Alteration, Proposed Replacement (if any). Rows include Bank, Bordering Vegetated Wetland, Land Under Waterbodies and Waterways.

For all projects affecting other Resource Areas, please attach a narrative explaining how the resource area was delineated.

C. Other Applicable Standards and Requirements

Streamlined Massachusetts Endangered Species Act/Wetlands Protection Act Review

1. Is any portion of the proposed project located in **Estimated Habitat of Rare Wildlife** as indicated on the most recent Estimated Habitat Map of State-Listed Rare Wetland Wildlife published by the Natural Heritage and Endangered Species Program (NHESP)? To view habitat maps, see the *Massachusetts Natural Heritage Atlas* or go to http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/priority_habitat/online_viewer.htm.

a. Yes No **If yes, include proof of mailing or hand delivery of NOI to:**

Natural Heritage and Endangered Species Program
Division of Fisheries and Wildlife
100 Hartwell Street, Suite 230
West Boylston, MA 01583

Oct. 2008
b. Date of map

WPA Form 3 – Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by MassDEP:
MassDEP File Number
Document Transaction Number
Acton
City/Town

C. Other Applicable Standards and Requirements (cont'd)

If yes, the project is also subject to Massachusetts Endangered Species Act (MESA) review (321 CMR 10.18). To qualify for a streamlined, 30-day, MESA/Wetlands Protection Act review, please complete Section C.1.C, and include requested materials with this Notice of Intent (NOI); OR complete Section C.1.d, if applicable. *If MESA supplemental information is not included with the NOI, by completing Section 1 of this form, the NHESP will require a separate MESA filing which may take up to 90 days to review (unless noted exceptions in Section 2 apply, see below).*

1. c. Submit Supplemental Information for Endangered Species Review*

- 1. Percentage/acreage of property to be altered:

(a) within wetland Resource Area	0.005+/-
	percentage/acreage
(b) outside Resource Area	0
	percentage/acreage
- 2. Assessor's Map or right-of-way plan of site
- 3. Project plans for entire project site, including wetland resource areas and areas outside of wetlands jurisdiction, showing existing and proposed conditions, existing and proposed tree/vegetation clearing line, and clearly demarcated limits of work ****
 - (a) Project description (including description of impacts outside of wetland resource area & buffer zone)
 - (b) Photographs representative of the site
 - (c) MESA filing fee (fee information available at: http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/ mesa/ mesa_fee_schedule.htm).
Make check payable to "Commonwealth of Massachusetts - NHESP" and **mail to NHESP** at above address

Projects altering 10 or more acres of land, also submit:

- (d) Vegetation cover type map of site
- (e) Project plans showing Priority & Estimated Habitat boundaries

d. OR Check One of the Following

- 1. Project is exempt from MESA review.
Attach applicant letter indicating which MESA exemption applies. (See 321 CMR 10.14, http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/ mesa/ mesa_exemptions.htm; the NOI must still be sent to NHESP if the project is within estimated habitat pursuant to 310 CMR 10.37 and 10.59.)
- 2. Separate MESA review ongoing.

a. NHESP Tracking #	b. Date submitted to NHESP

* Some projects not in Estimated Habitat may be located in Priority Habitat, and require NHESP review (see <http://www.mass.gov/dfwele/dfw/nhesp/nhesp.htm>, regulatory review tab). Priority Habitat includes habitat for state-listed plants and strictly upland species not protected by the Wetlands Protection Act.

** MESA projects may not be segmented (321 CMR 10.16). The applicant must disclose full development plans even if such plans are not required as part of the Notice of Intent process.

WPA Form 3 – Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

Provided by MassDEP:
MassDEP File Number
Document Transaction Number
Acton
City/Town

C. Other Applicable Standards and Requirements (cont'd)

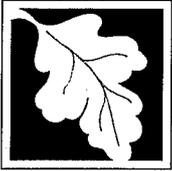

3. Separate MESA review completed.
Include copy of NHESP "no Take" determination or valid Conservation & Management Permit with approved plan.
2. For coastal projects only, is any portion of the proposed project located below the mean high water line or in a fish run?
- a. Not applicable – project is in inland resource area only

- b. Yes No If yes, include proof of mailing or hand delivery of NOI to either:
- | | |
|---|--|
| South Shore - Cohasset to Rhode Island, and the Cape & Islands: | North Shore - Hull to New Hampshire: |
| Division of Marine Fisheries - Southeast Marine Fisheries Station
Attn: Environmental Reviewer
1213 Purchase Street – 3rd Floor
New Bedford, MA 02740-6694 | Division of Marine Fisheries - North Shore Office
Attn: Environmental Reviewer
30 Emerson Avenue
Gloucester, MA 01930 |

Also if yes, the project may require a Chapter 91 license. For coastal towns in the Northeast Region, please contact MassDEP's Boston Office. For coastal towns in the Southeast Region, please contact MassDEP's Southeast Regional Office.

3. Is any portion of the proposed project within an Area of Critical Environmental Concern (ACEC)?
- a. Yes No If yes, provide name of ACEC (see instructions to WPA Form 3 or MassDEP Website for ACEC locations). **Note:** electronic filers click on Website.
-
- b. ACEC
4. Is any portion of the proposed project within an area designated as an Outstanding Resource Water (ORW) as designated in the Massachusetts Surface Water Quality Standards, 314 CMR 4.00?
- a. Yes No
5. Is any portion of the site subject to a Wetlands Restriction Order under the Inland Wetlands Restriction Act (M.G.L. c. 131, § 40A) or the Coastal Wetlands Restriction Act (M.G.L. c. 130, § 105)?
- a. Yes No
6. Is this project subject to provisions of the MassDEP Stormwater Management Standards?
- a. Yes. Attach a copy of the Stormwater Report as required by the Stormwater Management Standards per 310 CMR 10.05(6)(k)-(q) and check if:
1. Applying for Low Impact Development (LID) site design credits (as described in Stormwater Management Handbook Vol. 2, Chapter 3)
 2. A portion of the site constitutes redevelopment
 3. Proprietary BMPs are included in the Stormwater Management System.
- b. No. Check why the project is exempt:
1. Single-family house

Online Users:
Include your document transaction number (provided on your receipt page) with all supplementary information you submit to the Department.

C. Other Applicable Standards and Requirements (cont'd)

- 2. Emergency road repair
- 3. Small Residential Subdivision (less than or equal to 4 single-family houses or less than or equal to 4 units in multi-family housing project) with no discharge to Critical Areas.

D. Additional Information

Applicants must include the following with this Notice of Intent (NOI). See instructions for details.

Online Users: Attach the document transaction number (provided on your receipt page) for any of the following information you submit to the Department.

- 1. USGS or other map of the area (along with a narrative description, if necessary) containing sufficient information for the Conservation Commission and the Department to locate the site. (Electronic filers may omit this item.)
- 2. Plans identifying the location of proposed activities (including activities proposed to serve as a Bordering Vegetated Wetland [BVW] replication area or other mitigating measure) relative to the boundaries of each affected resource area.
- 3. Identify the method for BVW and other resource area boundary delineations (MassDEP BVW Field Data Form(s), Determination of Applicability, Order of Resource Area Delineation, etc.), and attach documentation of the methodology.
- 4. List the titles and dates for all plans and other materials submitted with this NOI.

Proposed Service Connection

E. Fees

1. Fee Exempt: No filing fee shall be assessed for projects of any city, town, county, or district of the Commonwealth, federally recognized Indian tribe housing authority, municipal housing authority, or the Massachusetts Bay Transportation Authority.

Applicants must submit the following information (in addition to pages 1 and 2 of the NOI Wetland Fee Transmittal Form) to confirm fee payment:

2. Municipal Check Number	6810	3. Check date	12-19-13
4. State Check Number	6811	5. Check date	12-19-13
6. Payor name on check: First Name	Valley Sports, Inc.		
7. Payor name on check: Last Name			

F. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge. I understand that the Conservation Commission will place notification of this Notice in a local newspaper at the expense of the applicant in accordance with the wetlands regulations, 310 CMR 10.05(5)(a).

I further certify under penalties of perjury that all abutters were notified of this application, pursuant to the requirements of M.G.L. c. 131, § 40. Notice must be made by Certificate of Mailing or in writing by hand delivery or certified mail (return receipt requested) to all abutters within 100 feet of the property line of the project location.

1. Signature of Applicant		2. Date	12/19/2013
3. Signature of Property Owner (if different)		4. Date	
5. Signature of Representative (if any)		6. Date	12/19/2013

For Conservation Commission:

Two copies of the completed Notice of Intent (Form 3), including supporting plans and documents, two copies of the NOI Wetland Fee Transmittal Form, and the city/town fee payment, to the Conservation Commission by certified mail or hand delivery.

For MassDEP:

One copy of the completed Notice of Intent (Form 3), including supporting plans and documents, one copy of the NOI Wetland Fee Transmittal Form, and a copy of the state fee payment to the MassDEP Regional Office (see Instructions) by certified mail or hand delivery.

Other:

If the applicant has checked the "yes" box in any part of Section C, Item 3, above, refer to that section and the Instructions for additional submittal requirements.

The original and copies must be sent simultaneously. Failure by the applicant to send copies in a timely manner may result in dismissal of the Notice of Intent.

B. Fees

Fee should be calculated using the following process & worksheet. **Please see Instructions before filling out worksheet.**

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

Notification of Abutters Under the
Massachusetts Wetlands Protection Act and the Town of Acton Wetlands Bylaw

In accordance with the second paragraph of Massachusetts General Laws Chapter 131, Section 40, you are hereby notified of the following:

- A. The name of the applicant is Valley Sports, Inc..
- B. The applicant has filed a Notice of Intent with the Conservation Commission for the municipality of Acton seeking approval to connect to the municipal water main located within an area Subject to Protection Under the Wetlands Protection Act (General Laws Chapter 131, Section 40) and the Town of Acton Wetlands Bylaw.
- C. The address where the planned activity will take place Knox Trail, Acton.
- D. Copies of the Notice of Intent may be examined and obtained by making an appointment at EcoTec, Inc., 102 Grove Street, Worcester, MA, during regular business hours.

For more information call EcoTec (Scott Morrison) at (508) 752-9666 x27 to make an appointment to review the filing materials. This is the applicant's representative.

- E. The public hearing is scheduled for January 15th, 2014 at 7:30 at the Acton Town Hall, 472 Main Street, Room 204, Acton MA, 01720
- F. Additional information regarding the date, time and place of the public hearing may be obtained from EcoTec, Inc., by calling this telephone number (508) 752-9666 during regular business hours.

NOTE: Notice of the public hearing, including the date, time and place will be published at least five (5) days in advance in the Beacon or other local newspaper.

NOTE: Notice of the public hearing, including the date, time and place will be posted in the City or Town Hall not less than forty-eight (48) hours in advance.

NOTE: You also may contact your local Conservation Commission or the nearest Department of Environmental Protection Regional Office for more information about this application or the Wetlands Protection Act. To contact DEP, call:

ABUTTERS LIST

PROPERTY : 2320 Main St.
Concord, MA 01742

MAP: B11

PARCEL: 2324-2

As per Massachusetts General Laws Chapter 131, Section 40 whereas the “abutters” included shall be:

Any person filing a notice of intention with a conservation commission shall at the same time give written notification thereof, by delivery in hand or certified mail, return receipt requested, to all abutters within one hundred feet of the property line of the land where the activity is proposed, at the mailing addresses shown on the most recent applicable tax list of the assessors, including, but not limited to, owners of land directly opposite said proposed activity on any public or private street or way, and in another municipality or across a body of water.

The Board of Assessors hereby certifies that the attached list contains the record owners as of January 1, 2013, and recorded on the current tax rolls. In addition, the Board certifies that the list includes owners, as per recorded deeds as received up to September 30, 2013.

Carl Gray
Valley Sports
2320 Main Street
Concord, MA 01742

RE: Wetland Resource Evaluation, Knox Trail, Acton Massachusetts

Dear Mr. Gray:

On November 14, 2013, EcoTec, Inc. inspected the above-referenced property for the presence of wetland resources as defined by: (1) the Massachusetts Wetlands Protection Act (M.G.L. Ch. 131, § 40; the “Act”) and its implementing regulations (310 CMR 10.00 *et seq.*; the “Regulations”); (2) the U.S. Clean Water Act (i.e., Section 404 and 401 wetlands); and (3) the Town of Acton Wetlands Protection Bylaw. Scott Morrison, RPSS conducted the inspection.

The subject site consists of a portion of the Valley Sports property in the vicinity of a proposed water line connection between the northwestern corner of the ice rink facility and Knox trail. The upland portions of the site consist of the existing ice rink building, parking lot, and fringe of forest along the eastern and western sides of the Assabet River. Plant species observed include northern red oak (*Quercus rubra*), white oak (*Quercus alba*), red maple (*Acer rubrum*), sugar maple (*Acer saccharum*), and white ash (*Fraxinus americana*) trees and/or saplings; poison ivy (*Toxicodendron radicans*), oriental bitter-sweet (*Celastrus orbiculata*) and grape (*Vitis sp.*) climbing woody vines; highbush blueberry (*Vaccinium corymbosum*), bramble (*Rubus sp.*), honeysuckle (*Lonicera sp.*), multiflora rose (*Rosa multiflora*) shrubs; and Japanese knotweed (*Polygonum cuspidatum*), teaberry (*Gaultheria procumbens*), partridge-berry (*Mitchella repens*), wild-lily-of-the-valley (*Maianthemum canadense*) ground cover. The wetland resources observed on the site are described below.

Methodology

The site was inspected, and areas suspected to qualify as wetland resources were identified. The boundary of Bordering Vegetated Wetlands was delineated in the field in accordance with the definition set forth in the regulations at 310 CMR 10.55(2)(c). Section 10.55(2)(c) states that “The boundary of Bordering Vegetated Wetlands is the line within which 50% or more of the vegetational community consists of wetland indicator plants and saturated or inundated conditions exist.” The methodology used to delineate Bordering Vegetated Wetlands is further described in: (1) the BVW Policy “*BVW: Bordering Vegetated Wetlands Delineation Criteria and Methodology*,” issued March 1, 1995; and (2) “*Delineating Bordering Vegetated Wetlands Under the Massachusetts Wetlands Protection Act: A Handbook*,” produced by the

Massachusetts Department of Environmental Protection, dated March 1995. The plant taxonomy used in this report is based on the *National List of Plant Species that Occur in Wetlands: Massachusetts* (Fish and Wildlife Service, U.S. Department of the Interior, 1988). Federal wetlands were presumed to have boundaries conterminous with the delineated Bordering Vegetated Wetlands. One set of DEP Bordering Vegetated Wetland Delineation Field Data Forms completed for observation plots located in the wetlands and uplands near flag B-6 is attached. The table below provides the Flag Numbers, Flag Type, and Wetland Types and Locations for the delineated wetland resources.

Flag Numbers	Flag Type	Wetland Types and Locations
Start A1 to A5 Stop	Blue Flags	Boundary of Bordering Vegetated Wetlands located along the eastern side of the Assabet River.
Start B1 to B8 Stop	Blue Flags	Boundary of Bordering Vegetated Wetlands located along the western side of the Assabet River.
Start R1 to R10 Stop	Red Flags	Mean Annual High-water Line (MAHWL) of the Assabet River (east side).
Start RA1 to RA8 Stop	Red Flags	Mean Annual High-water Line (MAHWL) of the Assabet River (west side).

Findings

Wetland A and B (i.e., flags A1 to A5 and B1 to B8) consists of a fringe of forested swamp located in the along the eastern and western edges of the Assabet River that is associated with a perennial stream. Plant species observed include red maple (*Acer rubrum*), gray birch (*Betula populifolia*), swamp tupelo (*Nyssa sylvatica*), and American elm (*Ulmus americana*) trees and/or saplings; poison ivy (*Toxicodendron radicans*) climbing woody vines; highbush blueberry (*Vaccinium corymbosum*), common winterberry (*Ilex verticillata*), arrow-wood (*Viburnum dentatum*), withe-rod (*Viburnum cassinoides*), swamp rose (*Rosa palustris*), speckled alder (*Alnus rugosa*), silky dogwood (*Cornus amomum*), glossy buckthorn (*Rhamnus frangula*), and American elderberry (*Sambucus canadensis*) shrubs; and bristly blackberry (*Rubus hispides*), cinnamon fern (*Osmunda cinnamomea*), royal fern (*Osmunda regalis*), and sensitive fern (*Onoclea sensibilis*) ground cover. Evidence of wetland hydrology, including hydric soils, high groundwater, saturated soils, evidence of flooding, and drainage patterns, was observed within the delineated wetland. This vegetated wetland borders a perennial stream; accordingly, the vegetated wetlands would be regulated as Bordering Vegetated Wetlands and the perennial stream would be regulated as Bank and Land Under Water Bodies and Waterways under the Act. A 100-foot Buffer Zone extends horizontally outward from the edge of Bordering Vegetated Wetlands under the Act.

Bordering Land Subject to Flooding is an area that floods due to a rise in floodwaters from a bordering waterway or water body. Where flood studies have been completed, the boundary of Bordering Land Subject to Flooding is based upon flood profile data prepared by the National Flood Insurance Program. Section 10.57(2)(a)3. states that "The boundary of Bordering Land Subject to Flooding is the estimated maximum lateral extent of flood water which will theoretically result from the statistical 100-year frequency storm." The project engineer should

evaluate the most recent National Flood Insurance Program flood profile data to determine if Bordering Land Subject to Flooding occurs on the site. Bordering Land Subject to Flooding would occur in areas where the 100-year flood elevation is located outside of or upgradient of the delineated Bordering Vegetated Wetlands boundary. Bordering Land Subject to Flooding does not have a Buffer Zone under the Act and Bylaw.

The Massachusetts Rivers Protection Act amended the Act to establish an additional wetland resource area: Riverfront Area. Based upon a review of the current USGS Map (i.e., Maynard Quadrangle, dated 1987, attached), the Assabet River is located in the western portion of the site. The entire length and the width to the mean annual high-water line of the twenty-three major rivers, including the Assabet River, are considered part of the river under the Massachusetts Wetlands Protection Act regulations. Riverfront Area would extend 200 feet horizontally upgradient from the mean annual high-water line of the river. Section 10.58(2)(a)2. states that the "Mean annual high-water line of a river is the line that is apparent from visible markings or changes in the character of soils or vegetation due to prolonged presence of water and that distinguishes between predominantly aquatic and predominantly terrestrial land. Field indicators of bankfull conditions shall be used to determine the mean annual high-water line. Bankfull field indicators include but are not limited to: changes in slope, changes in vegetation, stain lines, top of pointbars, changes in bank materials, or bank undercuts." Section 10.58(2)(a)2.a. states that "In most rivers, the first observable break in slope is coincident with bankfull conditions and the mean annual high-water line." The mean annual high-water line of the stream was delineated in the field with flags R1 to R10 and RA1 to RA8 based upon the above-referenced regulation. Furthermore, based upon a review of the current USGS Map and observations made during the site inspection, there are no other mapped or unmapped streams located within 200 feet of the site. Accordingly, except as noted above, Riverfront Area would not occur on the site. Riverfront Area does not have a Buffer Zone under the Act, but may overlap other wetland resources and their Buffer Zones.

The Regulations require that no project may be permitted that will have any adverse effect on specified habitat sites of rare vertebrate or invertebrate species, as identified by procedures set forth at 310 CMR 10.59. Based upon a review of the *Massachusetts Natural Heritage Atlas*, 13th edition, Priority Habitats and Estimated Habitats, Maynard Quadrangle, valid from October 1, 2008, there are no Certified Vernal Pools on or in the immediate vicinity of the site. However, the site is located within an Estimated Habitat and a Priority Habitat. A copy of this map is attached. The Regulations at 310 CMR 10.59 state that projects proposed within an Estimated Habitat as indicated on the most recent map published by the Natural Heritage and Endangered Species Program require a fully completed copy of any required Notice of Intent filed under the Act and Regulations (including all plans, reports, and other required materials) to be submitted to the Natural Heritage and Endangered Species Program no later than the date of filing with the issuing authority. In addition, in July 2005, the Massachusetts Endangered Species Act (M.G.L. Ch. 131A; "MESA") regulations (321 CMR 10.00 *et seq.*; the "MESA Regulations") were revised to provide formal review procedures for projects and activities proposed within a Priority Habitat. For nonexempt projects or activities proposed within a Priority Habitat, an additional

Mr. Gray
December 9, 2013
Page 4.

filing beyond that required under 310 CMR 10.59 for a project proposed within an Estimated Habitat, or a consolidated filing that meets the requirements under 321 CMR 10.20 and 310 CMR 10.59, must be made with the Natural Heritage and Endangered Species Program to allow the project or activity to be reviewed under MESA or under MESA and the Act, respectively.

The reader should be aware that the regulatory authority for determining wetland jurisdiction rests with local, state, and federal authorities. A brief description of my experience and qualifications is attached. If you have any questions, please feel free to contact me at any time.

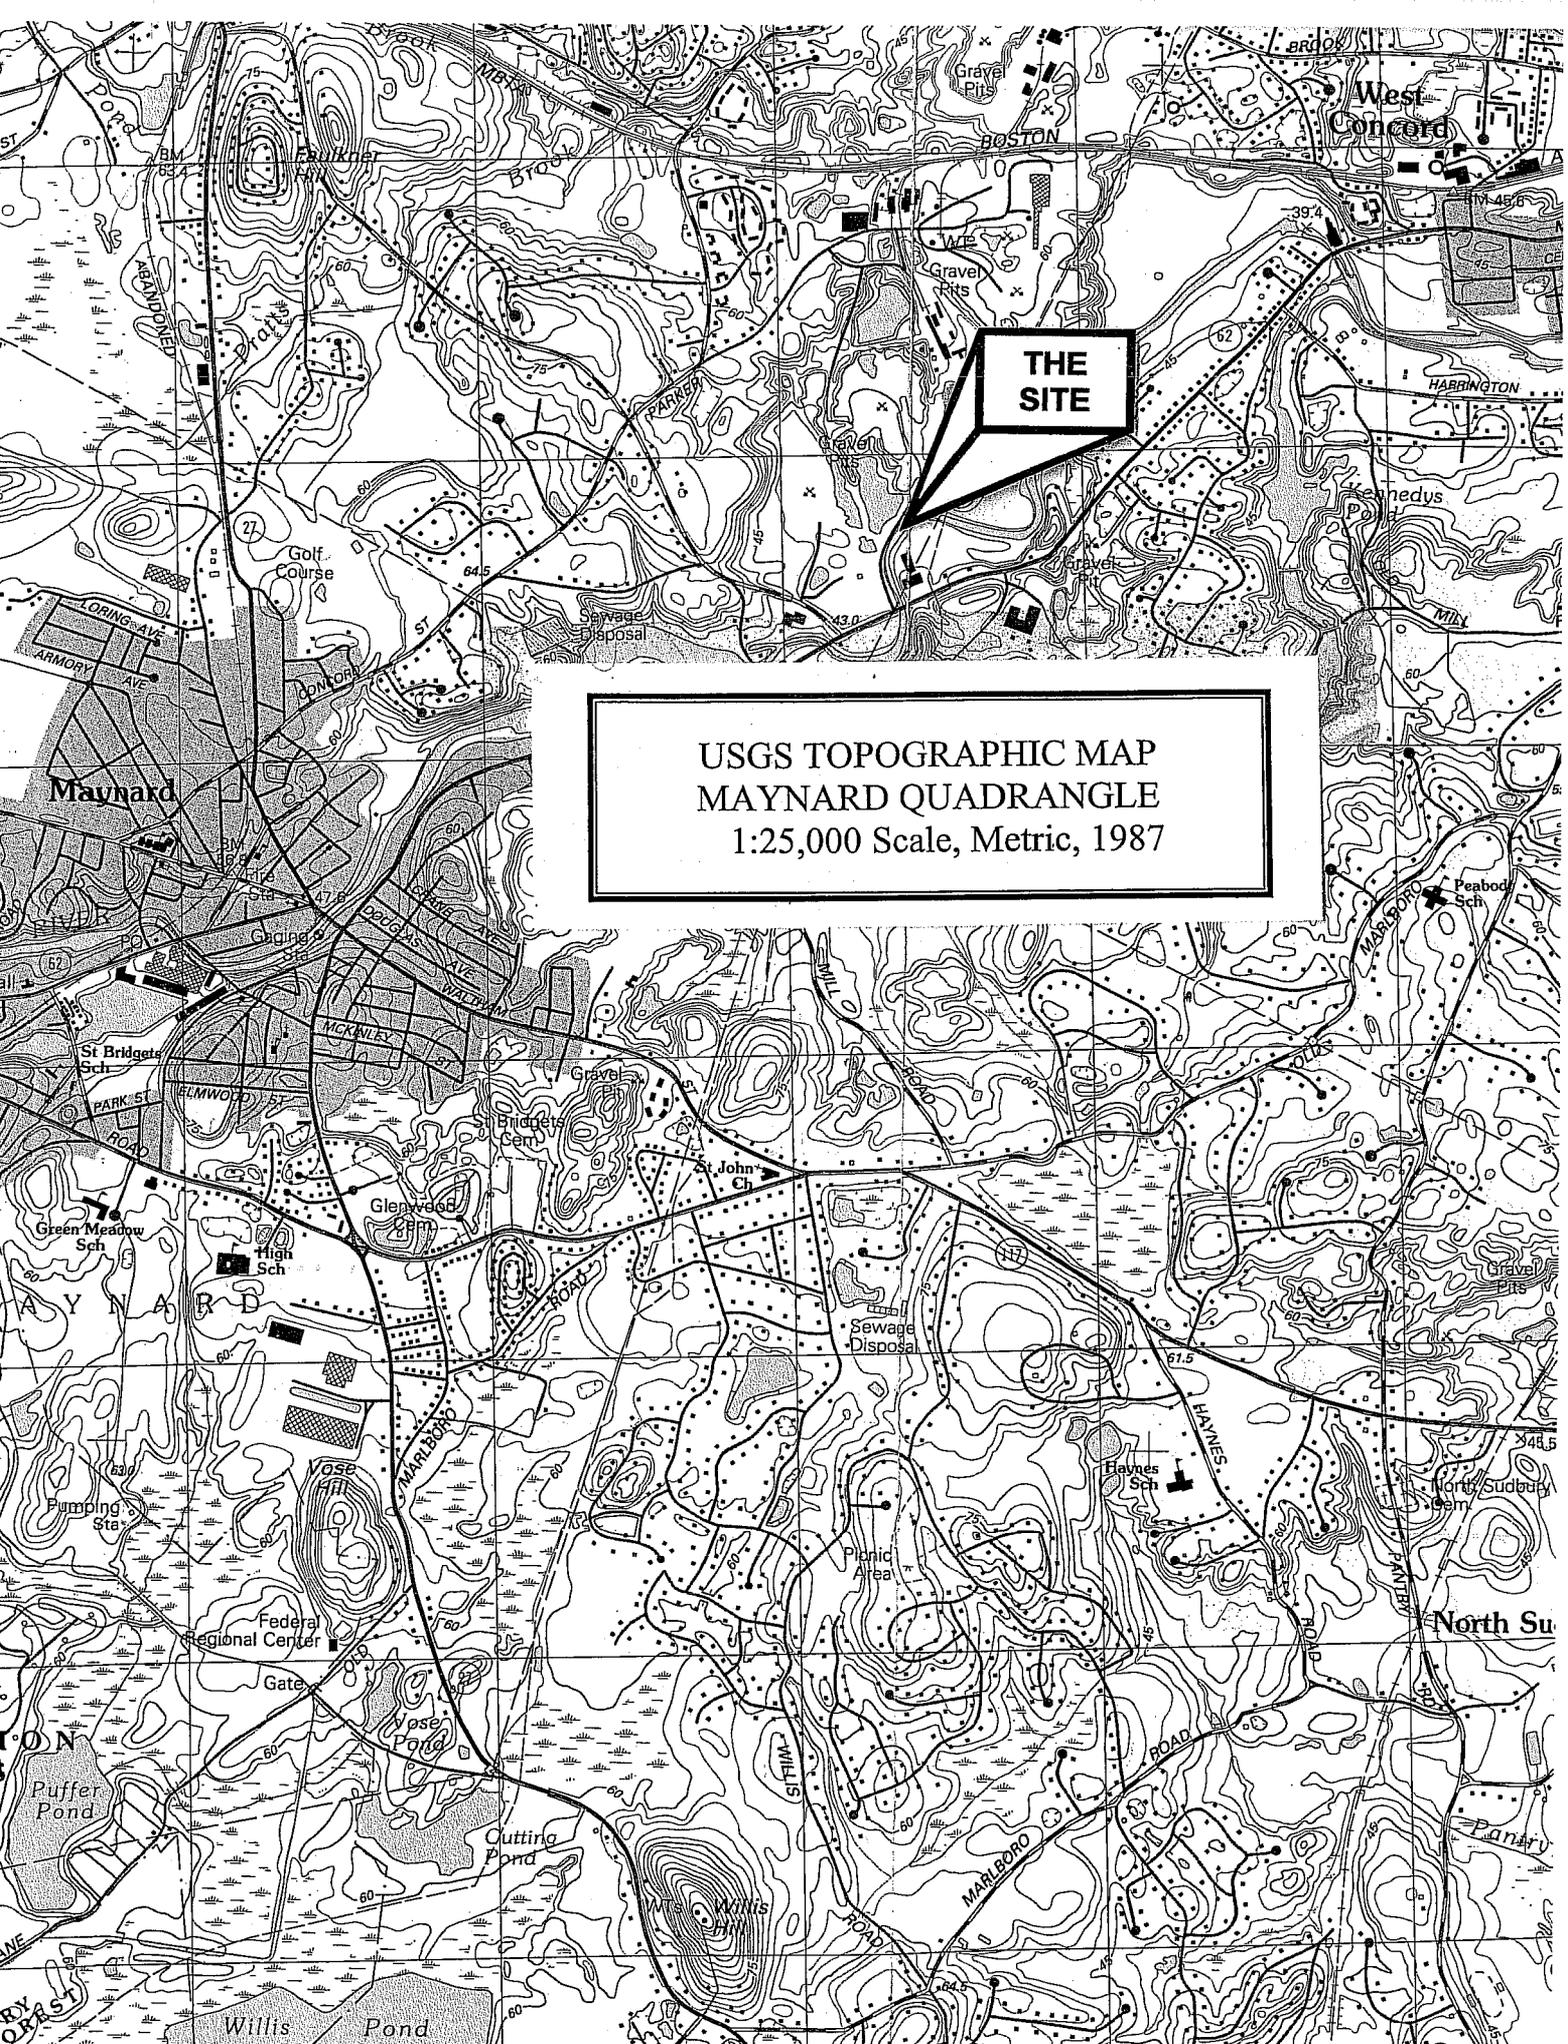

Cordially,
ECOTEC, INC.
