Date: Wednesday, April 30, 2014 8:03:33 PM

Dear Planning Board,

With respect to the Roosevelt Drive sub-division documents, "Proof Plan 2014-03-14" shows a cul-de-sac whereas "Residential Compound - Permit Plans 2014-03-14" shows a dead end. Are both the cul-de-sac and the dead end being proposed for the development and subject to comment at the public hearing? If not could you please clarify which one is being proposed.

I note that the house on 19 Washington Drive is depicted incorrectly as facing away from Washington Drive. Additionally I note that Brian and Michelle Danielle's house is missing from the plans. I respectfully request that these corrections and clarifications be made prior to the May 6, 2014 Planning Board meeting so that all parties attending the meeting can have the correct visual perspective illustrating the proximity to all abutting properties.

Thank you,
Dermot O'Grady
