Mr. William Shupert
Chairman, Acton Board of Selectmen
472 Main Street
Acton, MA 01720

Dear Mr Shupert:

Grain Mill Hollow Realty Trust owns the former Waiteco Machine building located at 4 High Street in Acton, on the corner of High Street and Main Street. We would like to connect this building to the town sewer system. We have spoken with the Board of Health who indicated that it is possible to connect through a Y-connection at Ericksons Grain. We have also spoken with Ericksons Grain and they have agreed to allow us to access their connection with town approval. We understand that this action would require the approval of the Board of Selectmen. Please advise us of any permitting or application process required to proceed with this connection.

Sincerely,

William F. Waite, Trustee
Grain Mill Hollow Realty Trust
