### To Our Customers and the Public

Recently, the Company installed a new gas service line in the vicinity. It has come to our attention that a component of that gas service is not in compliance with our rigorous standards for the material used in providing gas service.

We will be repairing or replacing the component in question to ensure it meets our standards.

We apologize for any inconvenience this may cause to our customers or the neighborhood.

If you have any questions, please feel free to call Jim Moorehead, Manager Technical Support, Field Operations – 617 723 5512 X 6112
