TOWN OF ACTON

APPLICATION FOR PERMIT TO CONSTRUCT WITHIN A PUBLIC WAY

This application must be submitted not less than five (5) days prior to any Construction within a public way.

Notice 24 hours in advance of any construction must be given to the Town Engineer.

- 1. Permittee: KeySpan Energy Delivery Address: 160 Waltham St.
- 1A. Telephone # 781-398-7394
- 2. Location of Proposed Construction: Blueberry Path / Carlisle Road
- 3. Purpose of Construction: installation of main and services
- 4. Length of Cut: 1,000
- 5. Width of Cut: 1.5
- 6. Width of Existing Pavement:
- 7. Type of Existing Roadway Surface: Type of Curb:
- 8. Type of Existing Sidewalk Surface: Asphalt Type of Shoulder:
- 9. Date of Street Opening: From To
- 10. For Work Involving Excavations: Dig Safe Number 2005-200-1134

I, the undersigned, hereby declare that I have read and agree to the Town of Acton Specifications for Regulating Construction with Public Ways dated January 8, 1991. I have deposited the required bond with the Town of Acton, and I covenant and agree that the Town may deduct from this amount the cost of repairs to the road surface, curbs, shoulders, walls or other features within the right-of-way including replacing bounds if not completed by me to the satisfaction of the Town Engineer within the specified time.

Special Instructions:

Signature of Applicant Natalie Yeray

Conditions of permit per the Town of Acton Engineering Dept memo dated June 14, 2005 (Attached herewith) along w/ plans of the As-Built for the end of Blueberry Path showing the Monumentation and a cross section of a typical sidewalk. Make sure the handicap is constructed to comply w/ handicap standards

Engineering Department

INTERDEPARTMENTAL COMMUNICATION

To: Don P. Johnson, Town Manager

Date: June 14, 2005

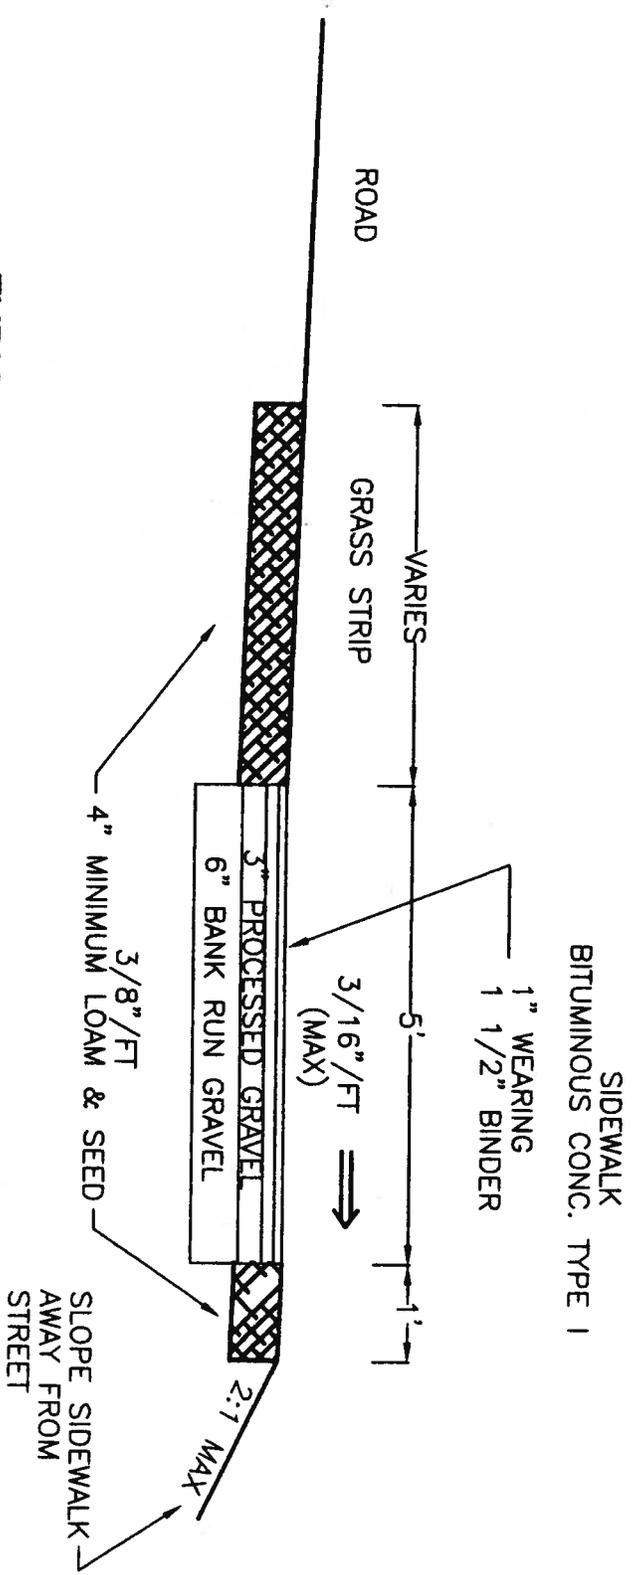

From: Engineering Department

Subject: Keyspan Energy Delivery, Carlisle Road & Blueberry Path

We have reviewed the petition from Keyspan Energy Delivery to install a 4-inch gas main in Carlisle Road from Marshall Path to Canterbury Hill Road (Robbins Mill Estates Subdivision) and a 2-inch gas main in Blueberry Path from the end of the existing gas main next to the driveway for house #5 to Canterbury Hill Road. We have the following comments concerning the petition:

1. We recommend that Keyspan extend the gas main underneath the existing sidewalk along Blueberry Path to avoid working within the road pavement. Once the gas main is installed, Keyspan can reconstruct the sidewalk from the sideline of the driveway for house #5 to the existing hydrant at the end of the road. Attached herewith is a typical detail for a sidewalk and a grass strip.
2. A Permit to Construct within a Public Way will need to be obtained from this department prior to starting work in Carlisle Road and the Town owned section of Blueberry Path.
3. I also enclosed a copy of the as-built plan for the Town owned portion of Blueberry Path showing the locations of existing monumentation such as the stone bounds and the drill holes in the stone wall. These survey markers need to be marked in the field and protected during construction. If these survey markers are disturbed during the installation of the new gas main, Keyspan should be required to hire a registered land surveyor to reset and certify the new locations of the stone bound and/or drill holes.
4. The final pavement patch in Carlisle Road should be done by the "grind and inlay method" used by Keyspan on Piper Road and Hayward Road.

We do not foresee any problems with granting this petition. If you have any questions, or need additional information, please let us know.

Re: Street Opening Requests Date: 5/10/2005

STREETS	DIGSAFE
Blueberry Path	2005-200-1134

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed explanation of how to categorize these transactions and how to use a double-entry accounting system to ensure that the books balance.

The second part of the document focuses on the process of reconciling the accounts. It explains how to compare the company's records with the bank statements and how to identify and resolve any discrepancies. This process is crucial for ensuring that the financial statements are accurate and reliable. The document also discusses the importance of regular reconciliations and how to handle any errors that may occur.

The final part of the document covers the preparation of financial statements. It provides a step-by-step guide to calculating the net income, profit, and other key financial metrics. It also discusses the importance of presenting these statements in a clear and concise manner that is easy for management and investors to understand. The document concludes with a summary of the key points and a final reminder to always maintain the highest standards of accuracy and integrity in all financial reporting.
