Engineering Department

INTERDEPARTMENTAL COMMUNICATION

To: Board of Selectmen

Date: September 2, 2009

From: Engineering Department

Revised: September 9, 2009

Subject: National Grid – Gas Main Petition – Summer Street – Willow St to Central St

We reviewed the petition from National Grid to install approximately 725 feet, more or less, of 6-inch gas main from the existing 2-inch gas main on Willow Street to the existing 4-inch gas main on Central Street. The new 6-inch gas main will replace and abandon the existing 2-inch main in Summer Street at this location. National Grid has attached a sketch showing the proposed work. The DPW has been working on improvements to the intersection of Central Street and Summer Street. Prior to the start of this work, we would like to meet with National Grid to discuss the proposed location for the gas main by Central Street to coordinate this project with our intersection improvement project. ***We revised our original memo based upon our discussion with Keith Lincoln of National Grid.***

As part of this work, we request the following items from National Grid:

1. Meet and discuss this project in relation to the Town's intersection improvement project at Central Street.

National Grid has agreed to meet with the Town in order to coordinate these construction projects.

2. Submit a new dig-safe number for the Permit to Construct within a Public Way that we have in the Engineering office.

National Grid will submit their Dig-Safe number to the Engineering office prior to the start of construction.

We do not foresee any problems with granting this petition. If you have any questions, or need additional information, please let us know.

Special Conditions
Relating to
Permit to Construct Within a Public Way # 2009 - 004
Location: Summer St - between Central & Willow

Construction Methods:

All construction shall meet the standards set forth in the **Town of Acton Specifications For Regulating Construction Within Public Ways** dated January 8, 1991.

Any sidewalk reconstruction shall be in accordance with the Architectural Access Board requirements set forth in **521 CMR**.

Inspection Schedule:

The contractor is responsible to contact the Acton Engineering Department 24 hours in advance of the start of any excavation and/or necessary inspections. (978) 264-9628

Survey Plans¹:

- all work w/in road pavement
- no work proposed w/in the road shoulders.

¹ If any survey markers (i.e. stone bounds, iron pipes, drill holes in stone walls, etc...) are damaged or destroyed during construction, the Permittee will be required to hire a registered land surveyor to reset the monuments and certify the new locations.

Road Pavement²: 1998

²The cutting of road surfaces less than 3 years old will not be permitted, unless final patching is done with infrared patching equipment.

No work is allowed to take place within the road pavement between November 15th & March 15th (Special Winter Regulations apply during these months).

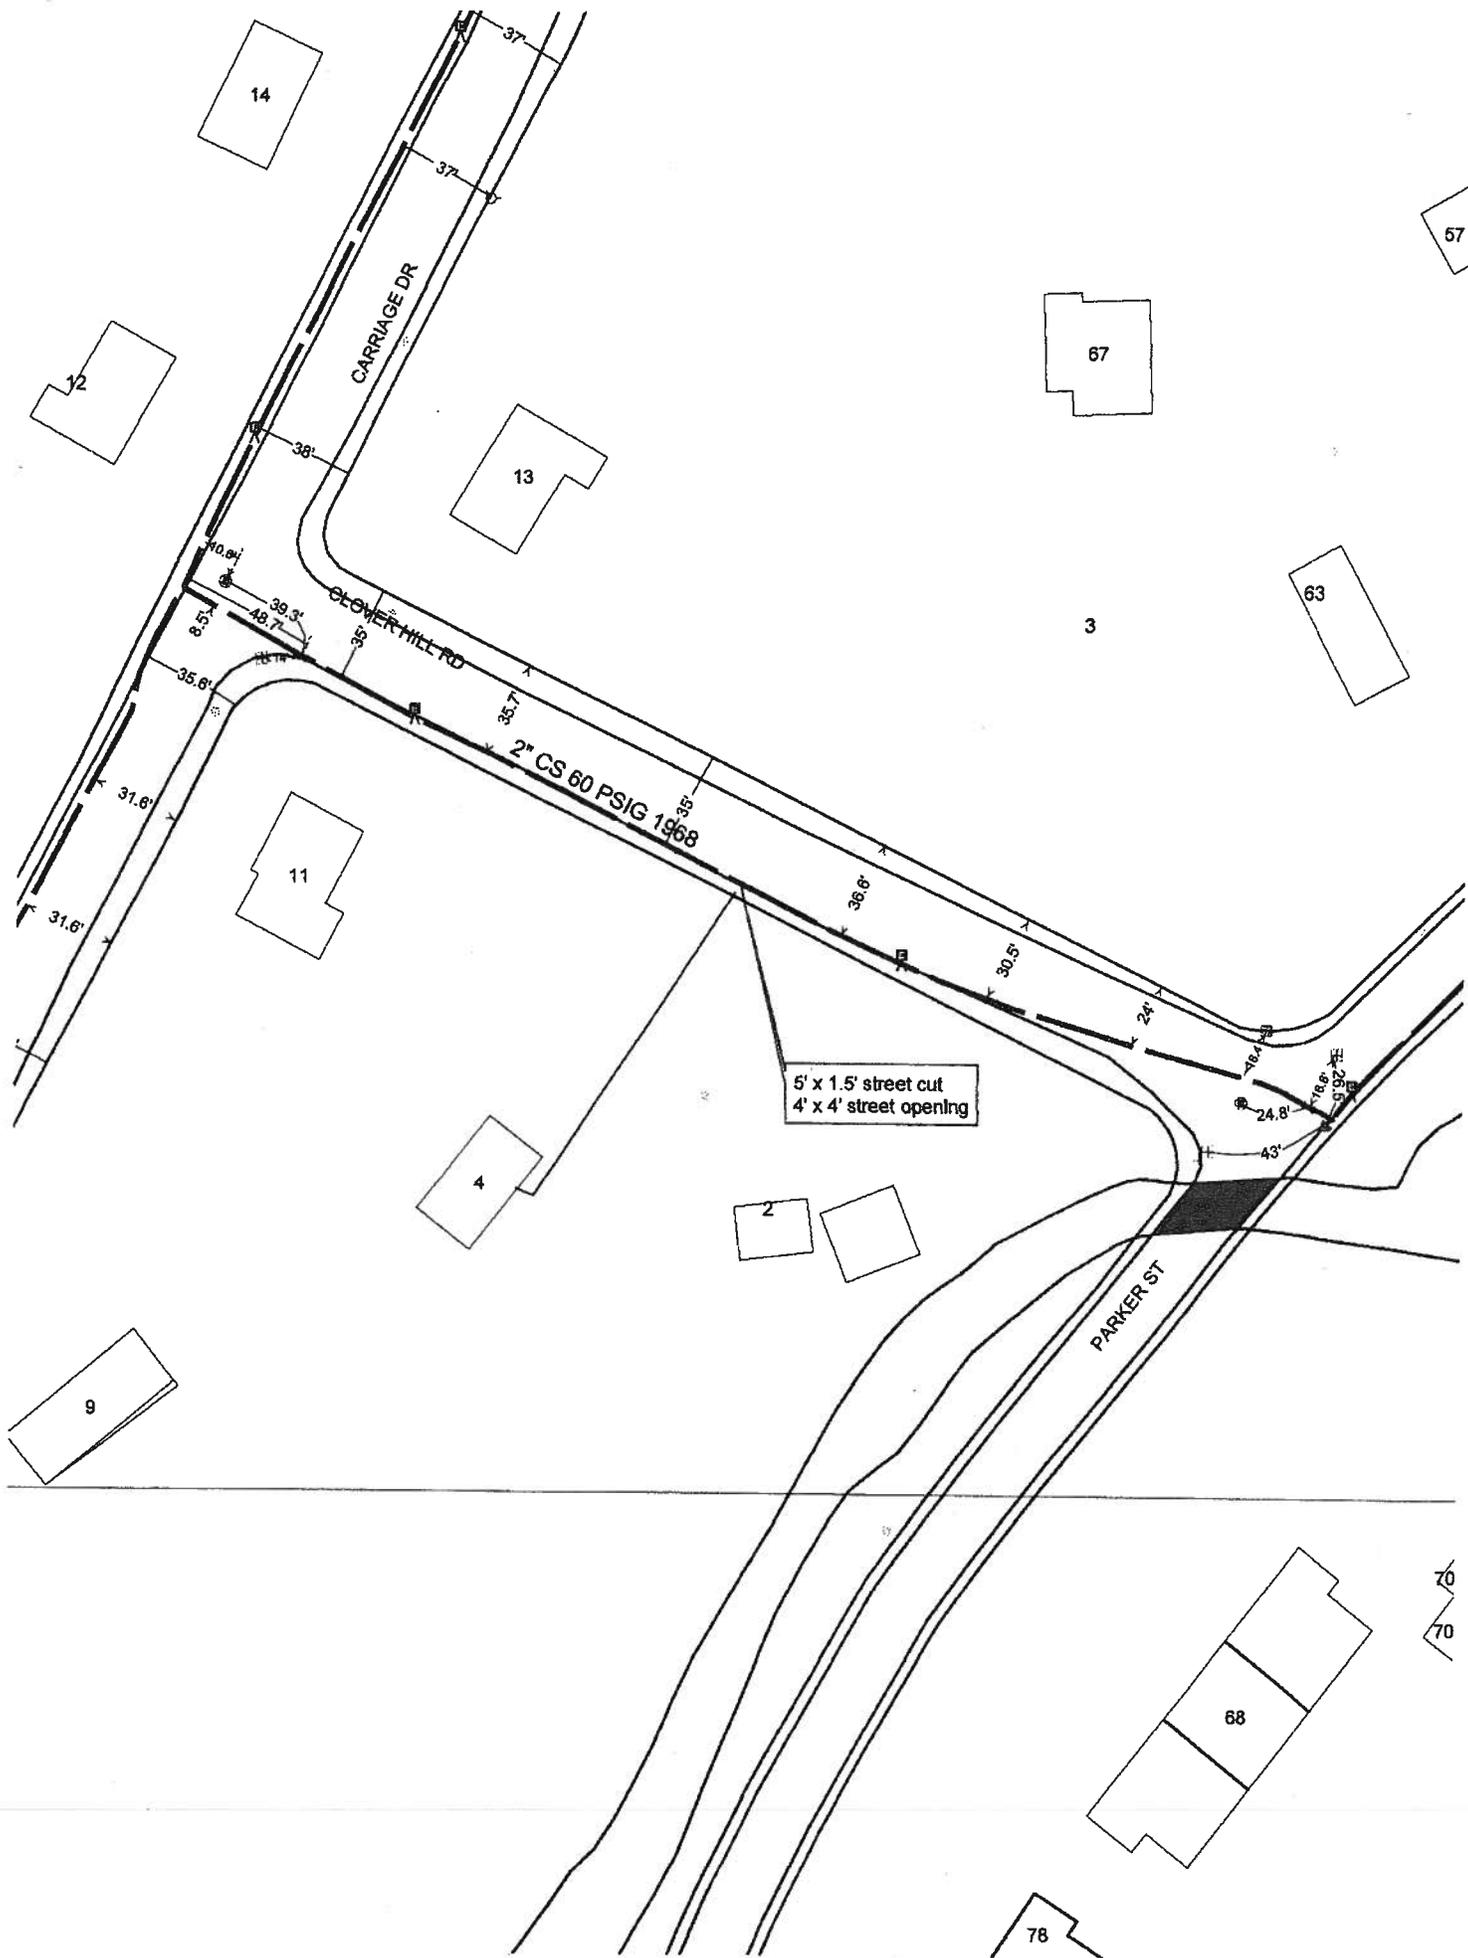

Traffic:

Police Details as required by the Acton Police Department (978) 264-9638

No work is allowed to take place within the road during the AM & PM peak travel times, unless approved in advance by the Acton Engineering and Police Departments.

Public Shade Trees:

Any work within the dripline of a public shade tree (MGL Ch 87) will be subject to approval by the Acton Tree Warden - (978) 264-9629
