## **Green Advisory Board**

---

July 23, 2014

Peter Berry  
Acton Board of Selectmen

Dear Peter,

At the August meeting we will seek your advice on the Green Advisory Board's responsibilities to work with the schools in Acton on energy reduction measures. GAB has historically had responsibility to assist the Board of Selectmen to make decisions in these energy policy and reduction initiatives related to the town schools and the town buildings/properties. With the regionalization of the schools, we feel a need to affirm our position and responsibilities related to the regional schools.

Ideally, we would like to continue to assist the schools, along with town properties, as the schools' impact and energy budgets are greater than those of town properties.

Thank you for bringing your thoughts regarding GAB's current goals and focus to the next meeting. We understand that this may be a two step process, the first being discussion and information gathering at the August 11<sup>th</sup> GAB meeting, the second being a discussion that you will have with the BOS.

Thank you

Bruce Friedman  
Chairman,  
Acton Green Advisory Board
