Subject: Hearing on 10/21

To whom it may concern.

I would like to attend the meeting on 10/21 but am not sure I will be able to get there so I would like to express my concerns regarding the zoning amendments for Kelly's Corner.

I do not support any amendments that impact Kelly's Corner since the improvement plan is in mid process.

I do not want to see a drive through in the Kelly's Corner area. If the town would consider a drive thru, I would like to see if along route 2A/119 where it is more commercial and there is lots more driving, and it is NOT a walkable area at all.

I understood the vision for KC was to become a walkable setting, putting a drive through in the middle of a walkable area defeats the purpose and takes away from the beauty of a quaint little town center. A drive through makes absolutely no sense for this section of town.

At the very least, I feel this should be put on hold until the 2020 study has been completed and the committees zoning amendments have been proposed. This committee has been working tirelessly on this project and they deserve to complete their processes before final decisions have been made.

Thank you for your time and consideration.
