 Water Supply Protection  
 Agriculture  
 Historic/Cultural  
 Other (please explain)
- Public Access:  
 Public  
 Public, residents only  
 Public, seasonal  
 None  
 Other (please explain)

The applicant must provide to the Executive Office of Environmental Affairs GIS Center materials that will accurately represent the site in the state's open space data layer. These materials include:

1. A copy of a USGS topological map with the site accurately drawn on it.
2. A copy of the site plan and/or a survey plan if available (required for exacted conservation restrictions).

The EEA GIS Center will attempt to add the site to the open space data layer using these materials but may request additional materials from the grantee if the materials provided are not at an appropriate scale or are not sufficiently clear to support conversion to digital data that conform to the EEA GIS Center's data standards.

Topographical maps can be purchased at many book stores, or can be printed by using OLIVER, MassGIS's free and easy-to-use online map data viewer:
