

		make the right turn out of his property on to Mass Ave heading eastbound without crossing oncoming traffic.
274 Main Street	Redstone Condos	Noted that potentially lost parking spaces along the front will need to be accommodated elsewhere on the site - space is limited. Existing parking spaces in front conveniently located to their assigned units. Grades will be difficult. Existing retaining wall(s) will need to be relocated/replaced.
442 Mass Ave.	Lalli Terrace	No concerns to date.
288 Main Street	CT Frampton (yellow condos across from Gulf gas station)	Requested the alignment be shifted to share impact burden with opposite side of the street.
288 Main Street	Holly Henkel	Traffic noise is a problem. Cars in queue for light often block the driveway.
421 Mass Ave	Sunoco gas station	The property owner is considering moving the curb cuts further away from the intersection. Requested that the species of street trees be carefully selected so they do not block store fronts.
9 Charter Road	AB Regional School Property	Would like to formalize path to Main Street.
428 Mass Ave	Verizon	Indicated willingness to work with Town on right-of-way matter. More interest in capitalizing from excess/unneeded property holdings. Noted need to work with Verizon during further plan development for utility design - underground utility impacts and pole relocations.
252 Main Street	Stop and Shop	Willingness to work with Town on right-of-way matter as plan develops further. Verizon and Stop & Shop representatives introduce each other and exchanged contact information.
263 Main Street	Chris Starr (Bueno y Sano)	Wants to work with Town cooperatively. But, very concerned about property impact - will right-of-way implication make property unusable? Would like driveway connection to neighboring bowling alley so as to be able to eliminate driveway at intersection.
268 Main Street	Louis Levine (White Victorian on corner, law office)	Concern about access drives and would like to improve safety where drivers currently cut through their parking lot to avoid the lights. X-walk at Charter Road needed.
381 Mass Ave	Edens (Acton Plaza I & II)	Concern about potential loss of parking spaces due to civic space at corners, asked to minimize parking impacts. Turning Community Lane into public way will have FAR impacts. Nothing presented appeared like a major stumbling block - details to be worked out as plan progresses.
