Re: 267 Great Road
Site Plan Special Permit

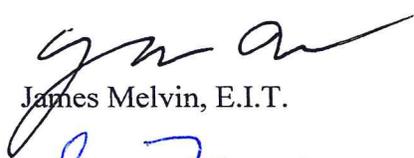

Members of the Commission,

As requested at the public hearing on December 2, 2015, unit 1 has been reduced in size to be outside the 75' buffer zone, the patio associated with unit 1 has been moved out of the 50' buffer zone, and the roof drywell has been moved out of the 50' buffer zone. We feel with these changes, the site will be significantly improved and the buffer to the isolated wetland will be markedly enhanced over the existing condition.

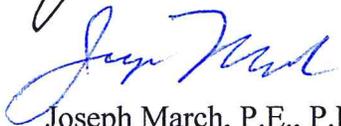

We thank you for your attention to this matter and look forward to discussing the project further at the next public hearing.

Respectfully,

Stamski and McNary, Inc.

James Melvin, E.I.T.

Joseph March, P.E., P.L.S.
