Hi, Kim.

With comments pending on this application, is anyone aware if any monitoring wells were installed in the past at this site? Seems per Section 2.2.1 of the original permit, this was a condition in 1989. To our knowledge, this was never done; I'd received a call from Concord Water in this regard. As it is a GWPD Zone 4, there interests are much more critical than ours due to Nagog Pond being their source water, and the proximity to the same. I'd assume that they'll comment accordingly. The permit section refers to the Acton Water District.

Thank you
Chris
