EMERGENCY RESPONSE

EMERGENCY RESPONSE TELECOMMUNICATION SERVICES

The United States Department Of Transportation (U.S. DOT) requirements under CFR 49 Transportation § 172.604

"A person who offers a hazardous material for transportation must provide a 24-hour emergency response number for use in the event of an emergency involving the hazardous material."
Failing to comply can result in civil penalties and significant fines per incident

The Occupational Health and Safety Administration (OSHA) requirements 29 CFR § 1910.1200

"(XII) The name, address and telephone number of the chemical manufacture, importer, employer or other responsible party preparing or distributing the material safety data sheet, who can provide additional information on the hazardous chemical and appropriate emergency procedures, if necessary".

An emergency number on your MSDS's, where emergency information can be provided in the event of incident with a hazardous material, is one of many requirements facing the needs of manufactures, transporters and employers having to meet the requirements for the Hazard Communication Standards. ChemTel Inc. provides the services you need to be in compliance with both the U.S. DOT and OSHA requirements, whether we manage your MSDS's in house or via the Internet.

Consistently one of the most common violations involves OSHA Hazardous Communications

ChemTel's Emergency Communicators are highly trained in the provision of hazardous materials information, mitigation procedures and immediate first aid information. Our staff works with state-of-the-art telecommunication and computer systems, along with one of the largest MSDS databases in North America.

HOW WE DO IT:

ChemTel Emergency Communication Specialists begin a call by obtaining vital information: call back number, caller's name, material identification, company affiliation, incident location. on-scene conditions and incident details are examples of the types of information gathered.

The caller receives immediate guidance depending upon the circumstances of the incident. Should additional support be required, ChemTel will dispatch Hazmat Response Teams with client authorization. In addition, responders will conference call with the Emergency Medical Personnel on scene as well as hospital personnel. MSDS(s) will be sent via email or facsimile to the appropriate parties. Upon concluding the call, the responder completes a detailed report documenting the incident. The report is then sent via facsimile, e-mail or telephone to your company appointed Representative.

As a ChemTel EMERGENCY RESPONSE Subscriber, You Will:

- Comply with U.S. DOT Hazardous Shipping Regulatory Requirements
- Comply to FAA and IMDG Shipping Regulations
- Enhance Product Stewardship
- Comply with Federal OSHA "Right to Know" Requirements
- Improve Worker and/or Consumer Safety and Confidence

ChemTel can design and implement programs to accommodate companies with special needs. We are your single source solution for any type of 24-hour Emergency Communications Support.

In Addition to our Basic Emergency Phone and MSDS Access Programs, ChemTel can provide:

- Natural Disaster Reporting Assistance
- Facility Disaster Plan Support
- Employee Assistance Program Support
- 24-Hour Telephone Bridge Service
- En route Security Plans – DOT / ERAP Transportation plans
- On-Site Pre-DOT Audits
- 24 Hour Medical Emergency Number on Product Labels
- Risk Management Assessments

- Security Tracking Programs for Product or People
- Corporate Phone Roll Over to Our Live Operator Response Communications Systems

ChemTel takes 24-hour Emergency Response Telecommunication Assistance to the highest level of service and accountability. We know this is what our clients deserve and will benefit from.

Click here to view the standard ChemTel Incident Report which is emailed to the client designated emergency contact person whenever an incident involving a client product is reported.

CERTIFICATE OF REGISTRATION
FOR REGISTRATION YEAR(S) 2013-2015

Registrant: LIFE SUPPLY CORP
Attn: JOHN F. MARGESON
11 VETERANS DRIVE
CHICOPEE, MA 01022-1062

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

Reg. No: 061413 551 060VW **Issued:** 06/14/2013 **Expires:** 06/30/2015

HM Company ID: 056327

Record Keeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-52, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.
