D. 401 Water Quality Certification

Pursuant to 314 CMR 9.00, the project described in your Notice of Intent requires a 401 Water Quality Certification from the Department of Environmental Protection and may require submittal of a 401 application form. See below for further details:

- ( ) Based upon the information submitted in and with your Notice of Intent a separate 401 Water Quality Certification application form is not required. The Department of Environmental Protection has reviewed the plans submitted by the applicant and finds that there is reasonable assurance that the project or activity will be conducted in a manner that will not violate the Massachusetts Surface Water Quality Standards, provided that:
  - a) activities are conducted in compliance with MGL c.131, §40 (the Wetlands Protection Act) and the Final Order of Conditions permitting the activities does not result in the loss of more than 5,000 square feet cumulatively of bordering and isolated vegetated wetlands and land under water and/or the dredging of more than 100 cubic yards of land under water;
  - b) the Final Order of Conditions includes conditions requiring at least 1:1 replacement of bordering vegetated wetlands under 310 CMR 10.55(4) (b);
  - c) the project is not listed in 314 CMR 9.04(1) through (11) including: discharge of dredged or fill material to any Outstanding Resource Waters; any part of a subdivision unless deed restricted, so long as the discharge is not to an Outstanding Resource Water see 314 CMR 9.04(3); activities exempt from MGL c.131, s. 40(except for normal maintenance and improvement of land in agricultural or aquacultural use); discharge of dredged or fill material to an isolated vegetated wetland designated as rare and endangered species habitat; loss of any salt marsh; activities subject to an individual 404 permit.

Therefore, provided that the above conditions are satisfied, the Final Order of Conditions will serve as the Water Quality Certification for this project. This does not relieve the applicant of the duty to comply with any other statutes or regulations.

- ( ) Before the activity described in the Notice of Intent can commence, you must obtain a Water Quality Certification from this Regional Office. Please complete the enclosed 401 Water Quality Certification application form and file it with this Regional Office for review.
- ( ) Your project involves dredging of greater than 100 cubic yards of material. Please complete the enclosed 401 Water Quality Certification application form and file it with the Department of Environmental Protection, Waterways Program, One Winter Street, Boston, MA 02108. Contact the Waterways Program at 617-292-5655 if you have any questions.
