---

Hi Kristen,

I spoke with Lou Levine about the conversation you had with him regarding the waiver list that I had prepared for the Adeline Way project. Specifically, he mentioned the waiver requested from Section 9.3 of the Subdivision Rules and Regulations. That section requires permanent markers (bounds) along new streets. In listing a waiver from this requirement I incorrectly stated "No permanent property line monuments proposed". I should not have said "property line", but rather "street monuments" to be accurate.

The Engineering Department commented that they would recommend monuments for the right of way (street). Based on my conversation with Paul Campbell, the applicant will install concrete bounds along the street, per Section 9.3. Additionally, they will install some form of permanent property line markers (likely iron pins with plastic caps) for the new lots.

Please feel free to call me if you have any additional questions.

Regards,

Rob
