Douglas Halley  
Health Director

472 Main Street  
Acton, MA 01720

Telephone 978-264-9634  
Fax 978-264-9630

September 23, 2008

Mobile Oil Corp., Gilbarco Inc.  
P.O. Box 22087,  
7300 West Friendly Ave.  
Greensboro, NC 27420

The Acton Board of Health has reviewed the application for the installation of above and underground fuel storage tanks. The following issues must be addressed:

1. The submitted application for license states total underground capacity proposed as 40,000 gals between 2 tanks. This is consistent with the submitted plan. The Approved License states that approval for Underground capacity as 20,000 gals total.
2. The existing on-site sewage disposal system is currently abutting the existing tank and the proposed UG tank position seems to be in direct contact with the over-dig area of the existing leeching field. Procedures to prevent damage to the leeching area and to prevent breakout of effluent must be submitted to the Acton BOH.

Approval of the permit by the BOH will require the aforementioned issues addressed and the following conditions will be required:

- All catch-basins located on the property must be covered/sealed during construction to prevent accidental discharge.
- An agent of the Acton BOH must be on site during removal and installation of all UG storage tanks.

If you have any questions or concerns regarding this, please contact the Acton Health Department at 978-254-9634.

Regards,

Justin T. Snair

Note: Complete upper portion of form and forward to local fire department.  
Do not make application to Department of Fire Services.
