INTERDEPARTMENTAL COMMUNICATION

To: Board Of Appeals

Date: August 4, 2016

From: Engineering Department

Subject: 122 Willow St – Proposed additions

We have reviewed the application for the additions to 122 Willow Street and have the following comments:

1. The proposed additions do not appear to be on any recorded easements.
2. The home and lot do not appear to be located within the 100-year floodplain area.
3. The proposed additions do not appear to require a street cut permit since no work will be done within the right-of-way. However if changes will be made to require new utility connections within the right-of-way, a Street Cut Permit will be required.
4. The proposed additions total less than 5,000 sq.ft of impervious area, thus do not trigger the need for a land disturbance permit

If there are any additional questions or comments, please let us know.
