**Subject:** RE: Electronic Sewer Handout

The map is a conceptual area that the committee has been using to study feasibility. It's not set in stone. At Town Meeting the Town Manager is looking to get authorization to use existing funds in the sewer enterprise to do a preliminary design. That design would give us a much better idea of what would be feasible. I'll save your comment and have the design engineer address it. Thanks

Thanks for sending. I think this is very exciting except that I am disheartened that my house appears to be on the border line, one house away from the demarcation on Arlington street. Is the map set in stone? Both my neighbor and I are basically on top of the wetlands (half my property is) and the sewer option seems much safer to me.

Thanks for your time,  
Lydia Higgins  
174 Arlington Street

Hi there,

My name is Lydia Higgins and I was unable to attend the WAVMA meeting last night. Are you able to send me a copy of your handout?

Thanks much,  
Lydia
