To: West Acton Sewer Action Advisory Committee
Subject: Sewer Project

To: Whom it May Concern

I'm writing in support of the Town of Acton investing in the West Acton sewer project. I am a business owner in the Wellness Center, Villageworks, located in West Acton-based

The growth of this community has been so positive. My clients, many of whom are Acton residents love having this walkable community of businesses.

The revitalization of independent businesses is such a great thing. I am delighted to be part of it.

As more and more young families move to this vibrant community, the need for more high quality restaurants and food options is could only be a draw.

West Acton needs sewer services in order to be able to do this.

I hope Acton sees the impact this would have on current and future residents.

Thank you for your consideration,

Dianne Cecere
